In an attempt to increase the ability of the Saudi Air Force to protect the Gulf shipping lanes from Iranian attack, the United States is considering the supply of KC135 airborne tankers to Saudi Arabia. The tankers would be used to refuel the F15 fighters supplied to the Saudis during the Carter Adminis-

According to official sources in Washington, details of the deal have still to be worked out. The Saudis have offered to buy or lease the tanker aircraft. However, there is resistance from the powerful Israeli lobby on Capitol Hill, which is opposed to the supply of any equipment which might one day be used against Israel. For this reason a renewed Saudi request for bomb racks for the Flos is again likely to be rejected.

The Pentagon has sent its senior Middle East expert, Major-General Edward Tixier, to Saudi Arabia with instruc-tions to coordinate and expedite the supply of American military equipment.

Meanwhile, with no sign that either Iran or Iraq is prepared to cease attacks on shipping in the Gulf. Japanese shipowners announced at the weekend that they would temporarily stop sending Japanese-crewed tankers to ports on the northern Gulf coast.

The move followed a missile attack on Thursday against the Liberian-registered Chemical Venture, a 29,000-ton tanker under charter to the Japanese. and protests from the Japanese seamen's union.

Japan, which in 1983 took more than 65 per cent of its crude oil imports of 3.5 million barrels a day from the Gulf, will continue, however, to send in

## great ships perish

From Robert Fisk At sea in the Gulf

Where

They call it the ships' graveyard although the term is cruelly premature. For the great tankers that Iran and Iraq have destroyed have been towed here in terminal condition, bleeding fuel oil into the warm, muddy brown waves in the very centre of the Gulf, a series of huge jagged holes in their scalded superstructure to show how they met their end. The Iranian Phantom jet hit

the 29,000-ton Chemical Venture so accurately last Thursday that its missile plunged into the very centre of the bridge: There is a 40ft sign there saying "No smoking" in the middle of the superstructure and the rocket took out the letters "S" and "M".

The tanker crews along the Gulf were growing restive over the dangers yesterday - up to 25 ships were riding at anchor off the Emirates alone, waiting for instructions from their owners - and you have only to take a look at the ruin of the Hoot to see why. The 117,000-ton supertanker is listing with a hole the size of a London bus along her waterline where an Iraqi missile exploded three weeks ago. The superstructure has been twisted back and outwards over the stern and the crews' quarters have simply melted down as if they were made of plastic rather than iron. The gash on the starboard side is so deep that you can see daylight through it.

Just to the north lies the 178,000-ton Safina Al-Arab, moving restlessly in the swell as a Swedish-registered tanker tries to take off the last of her crude oil. The stuff is everywhere, down the sides of the ship, across the water, turning even the foam on the waves dark. You can smell it from a mile away.

#### Just a crack in the land-mass

The salvage crews - Dutchmen for the most part with a fair sprinkling of Filipinos know the risks but stroll the decks as if they were in barbour, rather than sitting on mbs 72 miles out Gulf from Bahrain. It is an isolated place. On

the map of the Middle East, the Gulf seems just a crack in the land-mass but the seas can be rough - as they were yesterday - and the horizon featureless save for the vulnerable and lonely tankkers butting through the hot winds up to Ras Tanura and Kuwait. They have no convoys to sail in, no protection from the air and they creep these days as close as they can to the southern shore-line. They passed us yesterday, ill-painted for the most part as they plunged through the heat haze, targets of opportunity for either side in the upper reaches of the Gull, depending on their masters and their port of call.

The waters of the Gulf should be poliuted by now but they are alive with flying fish and porpoises and even turtles. Big-beaked black cormorants effortlessly outflew our fast Bahraini patrol boat yesterday though they kept well clear of the graveyard.

The only sign of President Reagan's concern was the discreet grey majesty of the USS Luce, a Seventh Fleet missile cruiser that lay all Saturday off the Mina Salman channel outside Bahraia l:arbour, a picket boat filled with armed sailors slowly circling her to ward off any unconventional attackers. Her radio traffic, clearly audible on ship-to-ship radios in the Gulf, seemed mostly bound up with the complexities of bringing new video films on board for the crew. But yesterday afternoon, a smaller US patro! craft moved into the port and the USS Luce, without publicity, steamed off into the sweltering dusk, its in-house entertainment presumably updated.

### Britain shivers in holiday misery

The Spring Holiday week-end reaches its climax today with a good chance of its being the coldest and wettest on

The unrelenting rain kept holidaymakers at home yesterday, leaving resorts, in the AA's words, "damp, dismal, and largely deserted".

An average 16.6 millimetres of rain fell on Saturday, just 8 millimetres less than the amount for three days in June, 1954, so far the wettest Spring

The coldest average temperature for three days - 13.5°C - was recorded in May. 1981. But this year's temperatures, 10.6°C on Saturday and 9°C yesterday, are lower, "It won't take much to make this the worst Spring Holiday", a London Weather Centre official said.

The United States evangelist, Dr Billy Graham, wore two sets of thermal underwear when he preached to a congregation of 16,000 shivering souls at Roker Park. Sunderland's football ground, on Saturday. "It was the coldest weather I have ever preached in out in the open air", he said.

Holiday traffic was fairly busy on Saturday but roads country Sunday returned to normal levels yesterday, apart from around the west coast of Scotland where fine weather brought some holidaymakers

The motoring organizations reported that roads to seaside resorts were in many cases less busy than on a normal weekend and the RAC said that its most common call from members was for assistance to start a car affected by damp.

The RAC added that cross-Channel travellers could face problems because an industrial dispute at Calais which meant that most sailings had to be diverted to Dunkirk or Boulogne. Nearly all ferries were fully booked. Dover and Folkestone were crowded well before 8am, with a long queue outside Dover's eastern dock.

The AA said that a strike by petrol attendants on Italian is was due tomorrow and continue until Saturday, closing filling stations between 6.30pm and 7.30am.

In the Channel yesterday, a Russian cargo ship came to the rescue when three British sailors got into difficulty. The crew and their 30ft yacht, the Garnele, sent an SOS message after hitting bad weather 20 miles off Cherbourg and were picked up by the Russian cargo ship, the Sena. The Sena towed the yacht to

the Isle of Wight coast where she was helped into port by the Bembridge lifeboat. Leading article, page 11

### Threat to Graham's TUC seat by left

By Barrie Clement Labour Reporter

Mr Alistair Graham, prominent right-winger, is in danger of losing his seat on the TUC General Council. Mr Graham, general secretary of the Civil and Public Services Association and a moderate contender for the post of TUC general secretary, is the victim of a left-wing coup in his union. An emergency meeting of the

union's executive last week gave notice that it would probably nominate Mr Kevin Roddy, a supporter of the Militant Tendency, as the union's representa-Mr Roddy, an executive

member, was narrowly beaten for the union's presidency by Mrs Kate Losinska, the veteran right-winger.

The final decision on the nomination will be made at executive meetings on June 17 and June 18. But with a 23 to 6 majority for the broad left group, which includes communists and Militant supporters. there seems little possibility of the decision being reversed.

Under new rules the union is entitled to one seat on the general council because it has 198,000 members. The CSPA will be the first group to nominate a representative who is not the effective head of a union. Mrs Losinka said yesterday:

"I enn't believe that the proposed nomination will reflect the wishes of the members of the union.

Mr Ray Alderson, left-wing vice-president, said yesterday that if a vote were taken now, Mr Graham would not take up the seat. There was, however, a difference of opinion on the left.
"Some believe that he should be nominated with the provise

that he be made to abide by conference decisions and the wishes of the executive. Others believe that he has taken such a high profile in going against the union's policies, that he should not be nominated." It is understood that Labour left-wingers and Communists

believe there are more important battles, such as the wages and "de-unionization", But Militant Tendency supporters take a hard line. Mrs Losinska believes that

the election which changed a 24 to 5 right-wing majority into a 23-6 left-wing one, was "a mess". The union's accountants

have been asked to investigate the poli

The complaints about the election centre mainly on an unusually large number of returns which arrived after the closing date on May 11. The right believes their inclusion would have led to a closer result.

Just over 62,000 members voted in the presidential elec-tion, out of 190,000 eligible. Out of 931 branches, 106 took no part and the returns of 85 were ruled invalid because they were late.

### Rowland threatens to close Observer

By David Jobbins, of The Times Higher Educational Supplement College lecturers are almost enforce its policies on promotcertain to reject arbitration even ing a "positive approach" to if school teachers accept it as a lesbianism and male homsexuaway out of the deadlock over lity,

Instead, they will rely on NUT criticized for rejected offer of a rise of 4.5 per cancelling meeting cent if, as expected, the local authority employers refuse to offer more money in new talks.

Mr Peter Dawson, general secretary of the main union involved the National Association of Teachers in Further and Higher Education, said yesterday that, although arbitration would have to be considered if it was accepted by the school teachers lecturers had not found it helpful in the past.

The union's annual conference in Birmingham effectively endorsed rejection of the offer of 4 per cent and £330 for lecturers stuck at the top point of the lowest salary scale, which was originally recommended by their negotiators. The union is claiming a big percentage rise and automatic transfer for lecturers on the lowest grade.

It is to strike for a day if the offer is not improved and only members directly involved in examinations will be exempted. Further action is being planned for the autumn term.

ence that in rejecting the offer June 8. lecturers had said they had had

ened national industrial action an excuse for any delay in if the Labour - controlled recalling the management side." Gwent County Council persists than 300 lecturers who have long distances to a management refused to accept extra teaching panel until everything possible

The conference also voted to a fruitful discussion.

The National Union of Teachers' decision to cancel a bargaining session with county councillors was described vesterday as incomprehensible by the local authorities chief negotiator in the pay dispute.

Mr Philip Merridale, a Hampshire councillor who is head of the management side in the statutory Burnham pay committee, said that the special session had been organized at the NUT's insistence. The withdrawal was extraordinary.

In response to pressure from Labour councillors (mainly representing London and the big cities) who want to see the teachers' pay dispute go to arbitration, Mr Merridale agreed last week to converse the reed last week to convene the management panel, where the Conservative counties have a

Record score for teacher in Mastermind

Miss Margaret Harris, aged hardly believe it. I guess I was

45, the deputy head teacher of a Southampton school, became Britain's new Mastermind last BBC's Mastermind experts were impressed by Miss Harris's score, which night, winning with a record 38 points on the BBC quiz came close to being the maximum possible on the Unlike past winners, who have abandoned everyday jobs programme.

Each of last night's four contestants, three women and one man, had two sets of questions, one specialist and one general knowledge. The number of questions posed to each contestant depends upon the speed of their replies, but usually averages 20.

Miss Harris answered 20 questions correctly on her own subject, the life and times of Cecil Rhodes, and ran through her general knowledge section so quickly that she answered 22 questions, all but four correctly. Her 38 points, gained as the final contestant, gave her the title over Jill Goodwin, a London insurance clerk, who had appeared to be well placed to win, with 35 points.

The finals were recorded last week on board HMS Hermes at Portsmouth. Miss Harris was the fifth woman to win the title in 12 contests.

Her early rounds, however, did not put her with the favourites and she scraped into the semi-final only through being the highest scoring runner-up from the first round.

#### House for sale after 'delisting'

By Charles Knevitt

Architecture Correspondent One of the finest examples of . domestic architecture of the inter-war years, is for sale less than a month after it was "delisted" by a minister against the recommendation of his specialist advisers.

Torilla, a two storey, reinforced concrete house, in Hatfield, Hertfordshire, was built in 1934 to 1935 by the architect F. R. S. Yorke, a pioneer of the Modern Movement in Britain. It was spotlisted Grade II last July, but removed from listing by Mr Neil Macfarlane. Under Secretary of State at the Department of the Environment.

Mr Hugh Small, a manage-

ment consultant, is asking for offers of more than £150,000 for the house, which he describes as a blunder by a famous architect" because of structural faults and lack of insulation, and nearly three acres, some of which have restrictive cove-nants. It was last sold in 1958 for £15,000.

Conservationists from Save Britain's Heritage and the Thirties Society were worried that the owner might wish to demolish the house after its delisting.

The minister's decision was against the advice of the Historic Buildings Advisory Committee. Mrs Jenifer Jenkins, its chairman, said that she was very concerned about the matter. "It is very rare that our

#### Birds wit a dilemma. On the one hand, was the golden that it should be allowed to opportunity it provided for revert to wilderness. Restoring dignity to the jobless

By Clifford Longley, Religious Affairs Correspondent

A disused textile mill in Bramley, Leeds, is being converted as a centre for the memployed by the local Angli-can parish, with even the furniture and decor designed to carry a theological message.

The canteen chairs and the wa cups are of a quality which would hardly disgrace a directors' dining room: the message is that, on the dole or not, "a man's a man for a that". It is an expensive gesture, for the chairs of polished hardwood ply cost upwards of £50 each. It is one of the most unusual

voluntary anti-memployment projects in the country, aimed not at providing paid work but at supplying the sense of personal worth that can disap-pear with the loss of a job. The project's founder, and vicar of the parish, the Rev Malcolm Stonestreet, is wont to make his point by sitting a visitor down and inquiring "There, do you feel worthless?" For the unemployed, or "unwaged" as they say here, factory-canteen style was not deemed good enough.

This rather up-market tea drinking facility, the "kitchen", is in the middle of the mill's old factory floor, surrounded by work space. This is the arena in which the "gift economy", in Mr Stonestreet's phrase, will operate. It is for the pursuit of activities falling somewhere in between work, leisure, hobby and entertainment, where his ideas on "the separation of work from wage" will be

applied. The Archbishop of York, Dr John Habgood, has personally blessed the scheme and appealed to local businessmen to contribute to the cost. It must be said that so far the unemployed are not much in an idease though in the spirit of evidence, though in the spirit of the "gift economy" some unemployed craftsmen have helped with the renovations. The parish contains about 2,500 unemployed, so there is clearly some local caution towards the

St Catherine's Mill, with 34,000 square feet of space, was did abandoned when the Wesl job.

Riding woollen industry collapsed, and Mr Stonestreet persuaded the National Westminster Bank to buy it for him, for £100,000.

The parochial church council

of Mr Stonestreet's parish founded the project, but the scale now puts it rather beyond their wildest arabitions. So they speak of it as a "regional" project of use to the whole of Leeds and beyond, and on this basis an anonymous donor has pledged £82,000 a year for the running costs. There is also an appeal to local industry for nearly half a million pounds, in aid of which the city gave a civic reception recently.

mending the scheme, also endorsed its philosophy of separating work from wages. It was, he said, a place where unemployed people could come "with pleasure, dignity, and a sense of being wanted". The churches has a unique oppor-tunity to pioneer an ethic which did not measure a man by his

#### Spy trial of diplomat troubles Norway's left

From Ulf Andenaes Oslo

Arne Treholt who was arrested four months ago on spy charges.
The case has been a considerable embarrassment to the Norwegian Labour Party and particularly for its left wing to which Mr. Treholt belonged. He campaigned zealously for uni-

lateral nuclear disarmament. The trial is expected to take place late this year or in 1985 when a general election is due. For the Labour Party, hoping to regain the power it lost to a Conservative coalition in 1981. it is most unpleasant to face the prospect of several of its leading personalities being summoned as witnesses in an espionage trial uncomfortably close to an election campaign. The present deputy chairman of the Labour Party, Mr Einar Forde and several other prominent party members were close associates of Mr Trebolt for many years.

Mr Treholt is accused of having worked for the KGB and the intelligence service of Iraq. The judicial authorities claim

Police are still questioning be has admitted handing over the Norwegian diplomat and classified documents to the former Labour politician Mr KGB.

Having started his career as a journalist and political activist, Mr Treholt held important posts during the 1970s first as personal secretary to a cabinet minister and later as under-secretary of state. During the last five years he had worked as a diplomat, and at the time of his arrest was chief of the press office in the Ministry of Foreign Affairs. He had played a leading role in the negotiations between Norway and the Soviet Union over maritime boundaries between the two countries.

According to opinion polls, the Trebolt case has adversely affected support for the Labour Party. It has also to some extent dampened the campaigning spirit among the anti-nuclear lobby on the Labour left. It has been claimed that Mr Trebolt played a role behind the scenes in the launching or the proposal for nuclear free zones in Scandinavia in 1979, a policy after adopted by Norway's then Labour Government.

Its top speed may make you yearn for an autobahn,but that alone doesn't make it a GTI.

What follows, does. Because the 205 GTI isn't merely a modified saloon. It's a purpose-built performance machine.

So, under the bonnet, you'll find a newly developed 1.6 litre, 105 bhp (PS-DIN) fuel injected power plant that urges you past 60 mph in a fraction over 9 seconds. It also sports a close ratio 5 speed gearbox that

lets you pile on near maximum torque from 2,700 rpm all the way up to 5,500 rpm, from first to fifth.

So it's as smooth as it's swift.
Its low, taut suspension has been specially tuned. Combined with the latest Michelin MXV low profile tyres, it easily holds its own in tight corners.

What's stopping you? A totally new braking system, with ventilated front discs, and strong servo assistance to boot.

Thirst for power, however, hasn't

led to a powerful thirst. Better than any of its rivals, the 205 GTI can return over 50 mpg at a constant 56 mph.

Happily, running costs were the only economies we considered. Elsewhere, we've been positively lavish.

Alloy wheels. Twin halogen driving lamps in the front spoiler. Tinted glass. A radio/stereo cassette. Six dial instrument cluster, including oil temperature and pressure gauges.

Reclining front sport seats, with

headrests. Dividing seats in the rear (It can turn into an estate car behind your back.) Black and red ribbed velour upholstery. Deep red carpets throughout. All standard.

Peugeot Talbot

(Electric front windows, and central locking are an optional extra.)

Despite all of the above, the 205 GTI is a surprisingly modest car in one important respect.

It costs just £6,295.

A new sensation on the road.

No wonder we can't make them fast enough.

Oriental pragmatism adapts the Communist peasant system

Time for tea-plucking: but China's farmers are turning to new crops to reduce the tea mountain.

### Private enterprise finds its place

The creation of a mountain demonstrates the difficulty of liberal reform in China, but David Bonavia, in the first of two articles, shows that the government is succeed-ing in transforming much of the country's agriculture.

There is too much tea in China, it has been stated here and grain - once the all-important totem of Chinese agriculture - is being given less and less attention as the peasants and authorities concentrate on other crops and on small industries.

Urged on by the past few ears' liberal reforms in agriculture, peasants in teagrowing areas have been reaching for quantity of output rather than quality, and much of their produce remains unsaleable.

The reforms, which are up for discussion at the present session of the National People's Congress here, have helped to maintain a steady increase in grain production which could lead to the abolition of rationing in the next few years, although this has not been officially predicted. Cotton cloth rationing was abolished several months

The growth of small new towns grouped around local processing industries is praised as contributing to industrial development without the big. socially disastrous migrations of peasants to large cities, which characterized Europe's industrial revolution.

Not everyone, however, agrees with the new policy, which is based on production between peasant families and their local village authorities. Left-inclined officials condemn as "capitalists" peasants who grow some who raise a few rabbits.

But the state and the Communist Party are now officially on the side of such enterprising people, some of

whose families are reported to be earning as much as £3,000 a year or more, an enormous sum in the Chinese countryside.

FOR REFORM Part 1

There are peasants who have bought tractors and hire them out privately - something that would have been anathema to the late Chairman Mao Tsetung and still arouses the indignation of those who claim to be the successors to his leftwing policies (including a fair number of mid-level provincial and rural officials).

There are also peasants in more remote or infertile areas

who are living in deep poverty. Their problems will be harder

Especially controversial now is the policy of permitting peasants to rent out their share f communally owned land, so that they can concentrate their efforts on sideline production like eggs, fruit, chickens or handicrafts or on small indus-

Left-wing "purists" will seize on this as a return to the landlord system, which kept China's peasants in misery and subjugation for centuries. But the group of top policy planners around Mr Deng-Xiaoping, the elder statesman, say this is ruled out by state supervision and collective ownership of

## Britain tops unpopularity poll

other EEC members love to hate most. An average of one in four of the Community population would prefer it to This is one of the findings of a poll put tegether for the

European Parliament to discover attitudes among voters in the run up to the direct elections in June. Not surprisingly, the French dislike Britain most, with some 41 per cent saying they would prefer it to leave the Community. The Irish are the most friendly, with only 14

per cent wanting Britain out.

But that is still a higher

proportion of opposition than is felt by any other country for anybody else For its part, Britain reciprocates the French attitude. One in four want France out of the Community, whereas the French are generally fairly

popular elsewhere. As far as feeling in Britain about its own membership is concerned, just 12 per cent want to leave, according to the poll. Anti-community feeling higher in Denmark, where IS per tent want to get out, and in Greece, where 13 per

cent want to leave, Eritain's popularity slump has been dramatic since the last direct elections in 1979, just after Mrs Thatcher came to power. At that time only 12 per cent wanted Britain to leave, exactly the same proportion as those opposed 10 talian membership. But while Britain has become twice as unpopular, Italy is now twice as popular as it used to be.

For all that the British appear to be generally a happy breed private lives. They get on better with their friends and families than anyone except the Dutch and the Danes. They are at least as content with their living accommodation as anyone. Only the Irish and the Dutch are happier about their state of

But they are easily the most unhappy about the way their council operates, although less critical about the public services. They are pretty miserable about the work they do and the money they get for it.

As to the future, they are among the most worried about finding jobs for the young about the rise in terrorism and drug laking. At the other end of the scale they are, apart from the Italians, the least worried about the rapid increase in the population of the Third World.

Overall the Irish seemed most worried about the future and the West Germans seemed most placid. These figures of future worries show that concern rises directly as prosperit; of a country falls.

As far as assessing the economic situation is concerned, the poll shows that fewer British feel that things are getting worse than anyone else in the Community, and the average Briton is more inclined to go out and spend any spare money rather than Save it than anybody else.

The British are easily the most scathing about protest movements such as the peace groups, with more than 70 per cent believing that these have

The second secon

bad. Fewer British admit to joining demonstrations than people from any other coun-

As to the unification of Europe, which was given a strong boost by President Mitterrand last week, the British, like most of their EEC neighbours, are sceptical. Only the Italians and Greeks on average favour the idea. More than half of the rest believe that unification would have little or no effect on the next generation.

It is in creating jobs that the public generally feel that the EEC can be most helpful, with three out of four considering this should be the main priority of the Community. Scarcely one in four thinks that social welfare can be improved through European cooperation, although one in three of the British believe it

could.

As far as the European elections are concerned, the poll reveals that most British voters believe that a Euro-MP should support the interests of his or her country, whether or not they are good for the Community. The Greeks, Danes and Irish (the other late entrants to the Community) tend to feel the same, whereas for the West Germans and the French, Community interests

The poll was conducted by Gallup and based on interviews among 9.748 people throughout the Community. largest individual national sample was the 1.356 interviewed in Britain.

should come first.

THE ARTS

#### THE TIMES MONDAY MAY 28 1984

Paul Griffiths reports on the première of the second opera in Stockhausen's Licht cycle

## Breathtaking spectacle of solemn absurdity

Samstag

Milan

Seven years on, Stockhausen's week is two days old. The cycle of operas for the days of the week he began in 1977, Licht, started its slow birth three years ago when Donnerstag was presented at La Scala. On Friday it was the turn of Samstag, a still more diffuse entertainment, performed not in the opera house but, circus fashion, out at the Palazzo dello Sport.

Donnersing was the Siegfried of this monumental exercise, the tale of the education and victory of Stockhausen's hero figure Michael, named after the archangel. Samstag is the Götterdammerung. This is Lucifer's day, the day of death (Montag, which Stockhausen intends to compose next, will be devoted to the other of the three main characters of Licht, Eva). The process of death is, in Stockhausen's terms, associated with a progressive opening-up of time and space, which perhaps justifies the variety in style and indeed quality of Samstag.

We start, as we started Donnerstag, with a "greeting": music of epic gravity sounding out

from four groups of brass and percussion at the cardinal points of the compass. Then, summoned by his implacable bass tritones, Lucifer appears: a man in a business suit with an opera cloak. He calls forth a minist, the composer's daughter Majella, and she plays the first scene, "Lucifer's Dream or Piano Piece XIII" (actually this is the twelfith of Stockhausen's piano pieces, but the numbering has been adapted to suit the inauspicious occasion in this work abounding with numerology, astrology and other sorts of mumbo-jumbo).

"Lucifer's Dream" is beautiful, alive, meditative music somewhat in the manner of Stockhausen's Mantra, though with the more or less curious additions of whispered numerals from the soloist, brief contributions from the bass who sings Lucifer (Matthias Holle) and toy rockets. The dream, evidently, is the sleep of reason, but it is also death, for the next scene is "Kathinka's Song as Lucifer's Requiem".

Kathinka is Kathinka Pasveer, a flautist, and typically Stockhausen has the erotic fantasy that she must be dressed as a cat, in grey bodystocking. Action now moves from one end of the stadium to a side

This year's Bath Festival, which

opened at the weekend, is the tenth and last to be planned by

Sir William Glock. In the

programme book he writes

memorably about the challenge

the audiences to follow".

wall, where Kathinka has the basic elements of her solo illuminated on two great clock faces, around which she clambers. Meanwhile a fantastic accompaniment is provided by six percussionists wheeled in as mechanical toys: they are costumed and made up entirely in man black, with many of their instruments sewn on to their clothing, and from stations around the hall they sound out their bell clangs, insect noises and bird-

The scene dribbles to its close as Kathinka concludes her song from behind a grand piano done out as a coffin, and then comes "Lucifer's Dance", the most spectacular scene of the opera. A curtain is drawn to reveal a wind orchestra seated in a massive framework of six vertical rows. Lucifer appears as a young man striding twenty feet high on stilts, and causes the orchestra to begin.

What they play is an hour-long ballet of the facial features. Different groupings take the parts of eyes, nose, eyelashes and so on, and the music is an accumulating sequence of ensembles and tuttis as Lucifer twists his face-orchestra into contortion after contortion. But then Michael appears in his guise as trumpeter: this is the composer's son Markus, clad in golden armour out of a quattrocento painting and playing a fast, brilliant, combative solo. For a while Lucifer's play with is vitiated by chance commissions, human negativity is interrupted, but then Michael is obliged to retreat. and more servants of Lucifer appear in the shape of Kathinka again and a

But the dance is not concluded. Stockhausen has the last word on the industrial dispute that initially robbed Donnerstag of its last act, and writes a strike into the score, The orchestra up and walk off from their perches, leaving the conductor and composer helpless.

The final scene, "Lucifer's Farewell", is a ceremony for monks in closs. Alleluiatic solos and awe-somely deep. Tibetan-style intonations take us very, very slowly through St Francis's hymn to the virtues, after which the monks race around (the clatter is remembered from the composer's first visit to Japan) and release a bird. The opera ends, as well it might, with the monks taking turns to hurl coconuts to the ground amid robust vocal encouragement.

There is something charmingly casual about this, and indeed about the whole enterprise. Licht had

looked like being absurdly solemninow, more appropriately, it can be solemnly absurd. The grand design is vitiated by chance commissions, from the University of Michigan Symphony Band (hence the sconing of "Lucifer's Dance") and from Perugia for a work to mark St Francis's 800th anniversary (hence the subject of "Lucifer's Farewell", which has posting at all to do with which has nothing at all to do with

There is no continuous narrative, nor anything to unify the work except the presiding oddity and strength of Stockhausen's genius. Of course that genius flares most powerfully in the piano dream, the scene for cat flautist and percussion maskers, and the dance for a spice rack of wind players directed by men on stilts (this last a masterstroke of Luca Ronconi's staging). But it is genius too, of a kind, that has otherwise intelligent people sitting silently to watch men breaking coconuts open, and, if Samstag is a breathtaking spectacle, it is also a barely credible jape.

• There are further performances in Milan tomorrow, on Wednesday and on Thursday, after which the production travels to the Holland Festival.

Positive challenge: Markus Stockhausen, arrayed in the golden armour of the Archangel Michael

### Sensuous shadows

Gwen John, painter sister of the better known Augustus, be-lieved that a beautiful life "is one led perhaps in the shadows". It became a lifetime's work for the painter Mary Taubman to penetrate them. Her discoveries provided the basis for Elaine Morgan's drama-documentary Journey into the Shadows, directed and produced by Anna Benson Gyles, on BBC2 last night.

Miss John corresponded throughout her life with her friend Ursula Tyrwhitt. She died in 1939 in a Dieppe hospice where she had been taken, as she was travelling without luggage, on the assumption that she was a vagrant.

She also wrote, sometimes three times a day, to Rodin, for whom she began to model in 1904, and whose mistress, a by no means exclusive position, she became. She was obsessed with him until his death in 1917. Rodin extended kindness but not commitment. She embraced Catholicism, lived poorly in France as a recluse, painting continuously but rerts. to pictures. Her life was dedicated to her work and her cats. Fuller recognition came only after her

She was played by Anna Massey, who rather resembles her. Miss Massey was required to spend a considerable time without her clothes on but, as always, was wondrously clad in purposefulness. Godfrey James, an actor not often seen in a role major enough to display his talents, was Rodin; Leigh Lawson the rapacious John; Mel Martin one of his mistresses, Dorelia McNeil; and Victoria Fairbrother was John's benighted wife Ida. But the brightest star, saving this lugubrious tale from absolute gloom, was Colin Waldeck behind the camera, who seized the opportunity of a beautiful

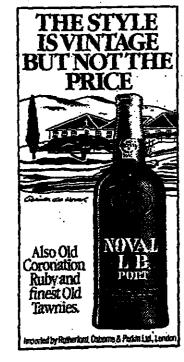

pictorial essay.

A painter with a happier life and, at 79, said to be only now reaching her peak, is Elizabeth Vellacott, whose figurative scenes are currently on exhibition. She was the subject of the first half of LWT's South Bank Show. Miss Vellacott began at the Royal College of Art in 1925 but her experience was unfruitful and she turned to design, particularly of textiles. It was only in the late Thirties that she began painting exclusively. She lives busily but peacefully in Cambridgeshire in a remark-

able house, the shape of an equilateral triangle.

Mr Bragg struck us hard in the second half with two black Pittsburgh sisters; De Cocoa and Hot Chocolate, currently wowing them in Harlem - a prelude to wider fame, it was suggested - with their funk

### Taking to the headiest waters

Bath Festival

of good concert planning, a process that is partly intuitive, partly a matter of whatever the opening concert on Friday (broadcast by Radio 3 on Saturday) was an inspired knowledge and judgment one choice: an absolute, unquestionmay possess ... partly of never able masterpiece, of which including anything that one wouldn't want to hear oneself, performances are too few and of which there is no decent recording in the catalogue. Richard Hickox will repeat his partly of being prepared from time to time to venture a few yards out to sea and of inviting performance tomorrow night to launch his own Spitalfields Festival in London, and there With that philosophy Glock more detail will doubtless be changed this country's musical taste during his 14 years at the evident than I could bear from seat at the back of Bath BBC, and on a more modest Abbey.

scale he has achieved the same But the grandeur of the work, result during a decade at Bath. especially its sublime double This year's programme is crammed with fascinating things, satisfying juxtapositions, and, to judge from the good choruses, came across boldly. Hickox adopted a too warm. rounded approach to the vocal attendances at the weekend for and instrumental sound, which quite esoteric programmes of took away much of the force from some of the great acclamations (to treat "Who so wise as Solomon?" dolce piano seemed perverse), but which baroque suites and new music, Glock's Bath audience is now out there in the water with him. Even Handel's Solomon for

pastoral chorus "Let no rash intruder", with its descent into sleep, at the end of Part L

Of the soloists, Shelia Armstrong's diffuse sound often sank beneath the acoustic's waves, but Charles Brett's sharp, eloquent Solomon and Felicity Palmer's well-focused Queen of Sheba penetrated well: her elegiac final aria (cut in the bowdlerized Novello score) "Will the sun forget to streak", with a superb oboe solo, was moving. The text of the oratorio should have been provided for

On Saturday morning, the Parley of Instruments gave a fascinating little concert, mainly of theatre music by Purcell and his French contemporaries, which presented for a first modern performance the music

worked to magical effect in the wrote for Corneille's Andromède. It was not as exquistely inventive as Purcell's music for The Virtous Wife, with which they began, but it showed how resourceful was the talent which Lully cabinned and confined.

The Parley's style is defuly inflected: Roy Goodman and Teresa Caudle duetted delightfully in Blavet's Variations on "La Furstemburg", and gave an understated, crisp account of Purcell's great G minor Chacony (though the harpischordist Peter Holman rather naughtily twisted it into G major at the final cadence).

On Saturday evening Lontano, directed by Odaline de la Martinez, presented a dense programme of recent music. important piece The most (apart from Gerhard's Libra, which they played with notice-Charpentier ably less confidence than in

London last week) was The Promises of Darkness by Roger Reynolds, an American composer of the utmost skill and imagination whose work is all too little known here. The work, which dates from 1976, is a tribute to Gerhard, and has some of his tough logic while inhabiting a totally different. wild and original sound-world.

Edward Lambert's Chamber Concerto, a new piece, with its trumpet-and-drum between striding unison lines for strings and wind, was strikingly imagined and very well played, though the final tumult of Beethoven's Ninth fifths brought a simering naivety to the surface....Once Upon a Time by James Dillon. who is this year's featured composer, was unrelentingly intense, with a hard, gem-like surface concealing vast complexities: Philip Grange's Wind Octet did not quite convince me until the final sudden distintegrated recapitulation.

Nicholas Kenyon

## **PUBLISHING**

## Best laid plans . . .

On June 11 a new street atlas of London is published. It has 400 pages and, for the first time in such complilations (of which there are a number), superbly clear coloured maps, showing fanfares and violent conflicts all the streets of the capital as they really are, not simply in diagrammatic form. Dual carriageways, one-way streets, public and other important buildings, even house numbers are shown at intervals in the

case of long roads. The joint publishers are Newnes and Ordnance Survey, and there lies the rub - or the bargain, depending upon how you look at it. The national grid index system - OS's prerogative - makes the atles unique, easy to use (Central London is at a scale of six inches to the mile) and compatible with other OS mapping of the area. The ABC London Street Atlas is a snip at

Other producers of maps and atlases have formed the Map and Atlas Publishers Fair Trading Committee to protest against OS's involvement in projects of this kind. Why should one specific publisher benefit from OS's information? Conversely, why should OS, a branch of the country's state publishing apparatus paid for by the taxpayer, make profits from a commercial enterprise?

My first thought that it had taken the ninteenth-century French novelist a long time to come into his own was dispelled when I read that, to accompany the book, there is major feature and advertising in the Daily Mail". The interesting harmonious relationship". It is question is: did the newspaper true that many smaller bookpay Roderick Bloomfield of Stanley Paul, doyen of sports publishers, to issue the book, or and opportunity to supply their is the Mail paying out yet more money to keep Miss Budd to

Weidenfeld & Nicholson are currently advertising for an 'Assistant to the Fiction Director". The job description makes it clear that the assistant has to perform as secretary as well. and to possess "a keen interest in all kinds of fiction". Experience in proof-reading is an asset, and an ability to copyedit. That is not all: "book evaluation is highly desirable". Quite a person, this new assistant to the fiction director. The fiction director, presumably, spends her time having luncheon with authors, agents and literary editors while her assistant does the book evalu-

I am not particularly, having a go at Weidenfeld, who in any case publish a modest quantity of fiction, but this advertisement is typical of the way in which publishers today try to corral staff capable of doing everthing and who, in practice, have little time (not to mention experience) to do anything but the minimum. The salary is said to be "in accordance with NUJ/in-house Agreement", but it is most unlikely to be in five

Mcanwhile, "a major British organization, predominant in the communications sector" is looking for a manager for its "software publishing venture. The initial focus will be on computer game and educational software." Clearly, an ability to write English free of jargon will not land you the job, but you could no doubt live with that as the salary is £28.000+. I like the

The new President of the Booksellers' Association, Grant Paton of Blackwell's, has made an inaugural statement of some point, which it hardly behoves the president of his association to make, that in this country we are blessed with an admirable public library system from Stanley Paul publish on July 9 which all manner of books are Zola: The Official Biography: available, "free of charge, merely for the asking". Has Mr

Paton never paid rates? He also reveals that the UK is endowed "with a wealth of stockholding bookshops"; and, most bizarre, that librarians and booksellers have "a friendly and shops would go out of business if they did not have the right local library authorities, but Mr Paton continues: "That this relationship exists in harmony is ample testimony to the care with which the delicate balance between the sale and borrowing of books in this country is

maintained". Have authors been wrong for decades in blamining their publishers and the distribution system for their sales? Has it. all this time, been something connived at by booksellers and librarians in cahoots? Not only, it appears from the new BA president booksellers do not sell books but they do not particularly want to. How awful if we bought too many of the things and nobody went to their public libraries. What then would librarians do?

E. J. Craddock

#### Opera in Britain

Salome

Grand Theatre, Leeds

duction of Salome for English National Opera, last revived there three years ago, was a meticulously questioning closely detailed and deceptively straight-laced affair. It was also conceived very much in close partnership with his own Salome, Josephine Barstow. The production has now reached Opera North; but its twin pillars are gone and in its restaging, unsupervised by Herz, the edifice of dialectic and dramaturgy is dangerously 10ttering. The visual points remain

intact: the court of Herod as amphitheatre crammed with spectators, though they seem less busy and less oppressive; the colours and shapes that nod toward Strauss's empathy with Klimt. But. as hard as David Gann, staff producing for Opera North, worked his company, the essential inner movemen and spirit is now blurred at the edges. Movement and pacing is too crude, too generalized. Many a Salome could benefit

from some Opera Factory-style in-service physical training, and Penelope Daner, making her British debut, is no exception. Given that her lush, petulant rather clumsy nymphet is physically and vocally a long way off Strauss's dream of a 16year-old princess with an Isolde voice, Ms Daner should cer-tainly have been given more help in focusing in her body what she, as yet, fails to express in her voice. One more veil must be drawn over the Dance. But, this apart, neither chastity nor dignity, neither pity nor fear has very much place in a portrayal which would really be rather happier among the intrigues of Dallas.

Phillip Joli's Jokanaan, on the other hand, is a statuesque portrayal, richly voiced and resonant in presence. Against his vast spiritual backdrop, Nigel Douglas's Herod is nicely sharp-edged, taut with terror at the thought of resurrection and at the touch of the wind. Della Jones's Herodias, alone of the court, finds true horror, the very heart of darkness in her voice. It is a deeply serious, properly corrosive performance.

Ian Caley's Narraboth, Beverly Mill's Page and the five chorus members who provide real muscle in the Judaic fugato all deserve a mention. The highest praise, though, must go to David Lloyd-Jones, who remembers all along that, for Strauss, the opera is a scherzo with a fatal conclusion. The English Northern Philarmonia is at once each character, each reaction, each response. And it is in the pit rather than on the stage that, this time round, we feel all the restlessness, the sensuality, and smell so much of the stench of Strauss's fleur Hilary Finch

Glyndebourne opera is 50 years old today. It opened its doors on May 29, 1934, with Mozart's Le nozze di Figaro with a cast which included Willi Domgraf-Fassbaender as Figaro, Audrey Mildmay - wife of John Christie, the founder of Glyndebourne - as Susanna and Roy Henderson as Count Almaviva.

Figaro was revived the next season and again in 1936, by which time Mariano Stabile (far left, above) had taken over as Figaro and John Brownlee (centre stage) as Almaviva. Audrey Mildmay is third from the left, with Heddle Nash

RLPO/Janowski Festival Hall

The familiarity of the others has long since made No 4 the most arresting of Rachmaninov's piano concertos. It is easy to understand why it has not shared their popularity. Commentators usually apologize for its not being like them, but the point is that it is a much later

Revised in 1941, two years refore Rachmaninov's death, it is eliptical in just the way that a composer's final music quite often is. The lyrical outbursts, for example, are real, and characteristic, but sometimes are brusquely curtailed.

In Friday night's performance by Peter Donohoe with the Royal Liverpool Philharmonic it was reassuring that the soloist's opening chordal theme was presented as part of the texture. And that the often surprising orchestral detail was finely shared by the conductor. finely shaped by the conductor, Marek Janowski. The keyboard writing is spare by Rachmaninov's standards yet still extremely difficult, and Mr Donohoe was masterful at all points, not least in his response to the orchestral complications.

The enigmatic heart of this concerto is its slow movement, where the invention is not

#### Romeo and Juliet Covent Garden

Among this season's crop of new Royal Ballet Juliets and Romeos, Friday night was supposed to bring the only joint debut, but in the event Jay The meaning of this latter is as ambiguous, though, as the Largo's sudden, brief, heavy Jolley was unable to appear recitative outburst. There is no doubt of the singular energy through illness or injury, so Ravenna Tucker found herself which runs through this strange playing her first Juliet with both piece, however, and which was fully released in this notable a true love and a false love other than whom she had expected, since Julian Hosking Much less of a rare bird in our concert halls is Rachmaniswitched roles to replace Jolley.

leaving Paris vacant for Ross MacGibbon to take over. Both men had obviously thought hard about these roles and acted intelligently; both partnered very securely; and whether the late change from the partnerships she had re-hearsed with was disconcerting to Tucker or spurred her to fresh efforts, who but she can say?

Certainly her Juliet was beautifully danced as would be expected from what we have seen of her in other roles, and considerably more dramatic than could have been forecast performance was the extent to which it brought out the on past form. Her acting gathered strength during the evening (that has been true of almost all this season's new which almost endlessly prolife-rates invention and flights of comers to the ballet). A sweetnatured, perhaps too composed Max Harrison little girl at first, she began to acquire a decisive edge after the

### **SPECTRUM**

Quentin Crisp, one-time Naked Civil Servant has moved to New York. Americans may seem rude, he says, but they admire old people

# The view from the kidney of Manhattan

been in a rooming house on New York's East Third street, at the edge of what the natives call 'the DMZ Zone'. If I lived any further east I would have to travel to and from all social engagements in an armoured vehicle. My bedsitting room, at the top of the stairs on the third floor, is decorated in a style which befits my station in life: early Low Tech. I have a portable heater, a telephone and a hot-plate - all that I need to survive now that my life has become one long camping trip. I have no radio because my interest in Civil Defence is minimal and what else is radio good for? I have no television set because I don't see why I, of all people, should pay to take unreality seriously.

Visitors to my room often intimate that they find it cramped and suggest that I would be happier elsewhere, whereas I think that to have as much as 120 square feet in the heart - or -- rather, given my location, the kidney of Manhattan - is bliss, far beyond anything I dreamt for myself when I was young.

Sometimes these same visitors look out of my one window, which faces another wing of the house, and ask me if I wouldn't prefer a better view? Only unimaginative people need a view, but I don't say so. I like walls, I tell them, there are few things in life more reassuring than a wall, especially a blank one.

The wall I face is not perfect, however. There are two windows facing mine, so I do not escape reminders of other people. Sometimes, at night, any time after eleven, when I am huddling under my only lightbulb, a knock will come at my door or a verbal demand will pass right through it from my neighbour complaining that he cannot get to sleep with my light shining in his eyes.

To ask why he does not get a blind would be to raise the equally embarrassing question as to why I don't get one either. Rather than get embroiled in this rigmarole (for n

Life's curtain to fall) I have taken to putting out my light promptly by I pm. If I come in later than that I undress in the dark, so as to spare my photosensitive neighbour any aggravation to his optic nerve. Living in proximity with other people requires that we consider their feelings may seem to be, for that very eccentricity may be the essence of their identity. When my neighbour complains and I give way, or he notices that there is no longer any cause for offence, it may have little to do in fact, with the alleged sleep-reducing glow of my wan sixty-watter, which after all has to penetrate two window-panes caked with soot before it impinges upon the retina of his insomniacal eyes - it may be simply that he needs to exert his will and to savour the small victory of somebody obliging him. If something as little as the flick of a switch is enough to keep him docile then I am perfectly willing to liaise. It could be much worse: I could be living next door to a rock musician of the heavy metallurgical persuasion.

> As the butt of mockery and abuse almost from birth I became well acquainted with humility and her twin, irony

I am often asked by people why I am so patient with my enemies. The reason is partly habit and partly strategy. Having been the butt of mockery and abuse almost from birth I became well acquainted with humility and her twin, irony, even before my compulsory miseducation began in earnest. I would have died of exhaustion if I had tried to combat the treatment I received, instead I feigned not to be angry. This is the only method known to me by which one can survive one's emotions and also feign not to have them. It works.

New Yorkers are familiar w

Quentin Crisp: "Who am I to refuse a call? I need every free meal I can get"

Instead of receiving prompt, efficient and courteous service you find yourself listening to Ponchielli's Dance of the Hours or some other musical claptrap while waiting for someone to answer your call. There is probably a theory worked out by some psychologist (who instead of remaining a good doctor went into market research instead) which states that people will wait longer for service if they are soothed by lullabies into comatose submission while the company saves on the number of workers it hires to answer your calls. As for the poor, the only buffer they can afford is to unplug their phones - with the obvious disadvantage that when the quiz-master calls offering an all-expenses-paid trip to Bermuda in exchange for an expla-nation of who Maria Monte, was, they won't hear about it. But then the poor

To me the telephone is a

always have bad luck it seems.

telephoning a large store or company. refuse a call from anyone? Instead of using a buffer to protect me I employ the art of manners so as to be open to every social opportunity (I need every free meal I can get) but not to be imposed upon unbearably by bores, windbags and psychos. One day, I fancy, someone will ring up, saying "I have this friend you may like, coming into town. She used to be in movies. Why don't we all have lunch tomorrow?" And when I show up the next day, the surprise guest will turn out to be Maureen O'Hara. She will smile and I will hear an Aeolian harp playing an Irish air, and our memories will do a little jig. Meanwhile, back on the Lower East Side, one of my most frequent callers, at present, is someone I've never met. She has a young-sounding voice, and introduced herself after The Naked Civil Servant was repeated She seems timid and shy but is not in a blind, even one of Venetian torture encountered nowadays when obliged to keep it open; who am I to the film is that you never wanted aristocratic or refined, although there. @ Quentin Crisp 1984

anything for yourself." I was delighted that she had noticed something so subtle that even professional critics had not detected it, yet for the rest of her calls she had nothing much to say and merely needed someone 'nice' to share her nothingness with.

For six sizzling summer weeks during 1983, when most sensible New Yorkers have departed for breezy beaches or more temperate climes, an intrepid producer in search of miraculous profits or a tax loss (which my spies in the world of high finance tell me is often the same thing - no wonder the economy is shaky) staged a revival of my one-man show, entitled: How to Make It in the Big Time. Much to my amazement, hundreds of people

> When people say that Americans are rude they usually mean they are nosey, and they are, they long to know everything

showed up each week at the Actor's Playhouse on Seventh Avenue - such is the drawing power of air conditioning. Reuters News Service, in an article about the show, dubbed me the powdered Messiah which like most journalism adds false excitement to the facts. Even with my name in lights and my countenance plastered around New York on posters (now peeling - how fleeting is fame) I remain the same: Your Humble Savant.

I agreed to be lured out of retirement but only as a stand-in for Gloria Swanson who was permanently indisposed. I viewed the show as my glorious swan song and wanted to call it: 'Crisp's Last Stand'. Much of the programme, as in the past, consisted of questions-and-answers; some of the inquiries I received were trivial and begged to be sent up: 'What sign are

'I'm Septuagenarian,' I replied.

In America practically everyone regards himself as middle class and is proud of it, whereas in England to call something 'middle class' is to condemn it. (Having pottery ducks on your walls would stamp you as indisputably lower middle class in England, but in America the harshest comment that would be made about having such ducks on your walls is that you must be into 'fifties kitsch'. Things are dated by time here and to some extent by taste but never by class.)

There is a mad desire to be fashionable in America, to change when things change and always in order to seem young. There is much less desire to seem young in England, but in America youth is not merely a phase through which one passes but a lifelong value. There may be seven ages of man, according to Shakespeare, in the New York area on television. but in America there is only one that matters - perpetual adolescence, On: that I don't see the point to investing the aural equivalent of Chinese water facing the outside world and I feel that struck me the most when watching English, show little interest in seeming

are the occasional jokes about people who came over on the Mayflower. Debrett has now produced a book called The Texan Aristocracy, but this is a misnomer because it's really about the rich, and while great wealth may create a glassy shield around certain Americans it does not bestow any of the attributes of aristocracy.

When Americans parade their wealth, they do so chiefly in the form of extreme generosity. When I visited Texas, during my lecture tour, found this to be overwhelming. I was practically handed the keys to the cities of Austin and Houston, but not having been raised with my own Neiman Marcus charge account, I had no idea what to do with such extravagant gifts. The American habit of generosity includes the desire to make others feel at home and to make everyone feel that they are your equal, though not perhaps in wealth.

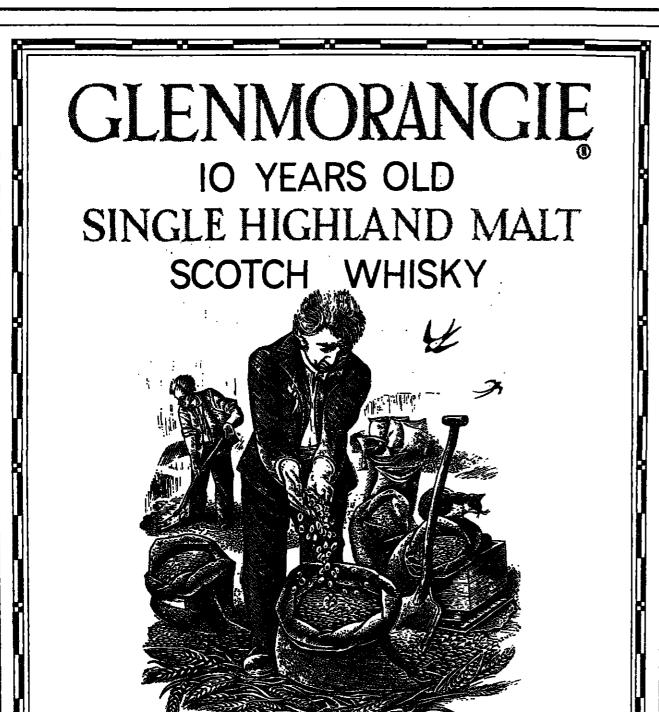

Some years ago in Los Angeles attended an awards ceremony, the star of which was Miss Julie Harris. There was a moment when I asked my companion if Miss Harris had arrived. He stood up and looked about, and then seeing her on the far side of the room, walked over to where she was, evidently to ask her if there was a moment when I might be presented to her. She immediately got up from her table, left everything, and crossed the room in order to present herself to me. This is an instance of the way that the American idea of generosity, hospitality and good manners work. They endeavour to always make the first move, and they are concerned about creating the impression that it is an honour for them to meet you.

When people say that Americans are rude they usually mean that they are nosey, and they are, they long to know everything about you, in the middle of the street, even in the dead of winter, but this is because they feel they are your friends, so they don't see their curiosity about you as an invasion of privacy.

Although there is a reverence for the young in America, there is no blame laid upon people simply because they are old, an attitude which exists in England, where anyone who is having a jolly life at the age of 60 is treated with derision.

In America, people like Katharine Hepburn, Helen Hayes, Ruth Gordon, to name a few of the actresses who keep on working come hell or arthritis, are regarded practically as heroic figures. In England, the old tend to be pushed aside as dotty relics, but in America, if you can run around Central Park at the age of 86 someone is bound to put you on television on a cable TV show at least for the deregulated airwaves are an arid waste in constant need of irrigation. Contra Mr Orwell: in America people are grateful that they are worth watching.

2. ARCHIE MURDOCH arrives at the malting shed shortly after sun-rise. A maltman of 19 years' standing, he can judge the quality of the barley (grown on wind-swept estates in the glass of Ross-shire) by sifting the grain through his hands. Once he has satisfied himself that nature, and the harvesters,

have done their job, only then can the day's distilling begin.

## Every cliché nestling in its niche

vened in hopes of forming an Amalgamated Union of Cliche Twisters ended in uproar last night. One delegate described the scene as: "a shambles of the first water". I was only there as an observer, acting for and on behalf of the United Union of Tautologists and Allied Trades and Suchlike Professions. That's all I was there for. That was my only role or purpose in being on the premises. But I was appalled and shocked. It was not like a union meeting, it did not resemble a union meeting in any way, shape or form, it was more like a bear garden with the gloves off. A shambles.

At the centre of the dispute stood the formidable figure of Mr Sid Olivetti, president of the Ancient Brotherhood of Metaphor Mixers, who opened the proceedings. "Yes" agreed a junior official of the same union later, "it was all down to Sid. He put his cards on the table and it had a domino effect." In the course of his speech, Mr Olivetti accused the govern-ment of waving an olive branch in the face of history". Mrs Thatcher, he stated, was "the biggest red rag to which my union, speaking as a bull, has been subjected. Subjected to. But now we intend to start the ball rolling in the direction of a horse of a different colour, this time with teeth." His union was tired, said Mr Olivetti, of playing second fiddle, like some fly on the wall of the Augean stables. Now was the time to grasp the nettle and catch the Prime Minister with her trous-

At this point, Mr Arnold Crossbotham of the Inspired Society of Sports Stylists rose like a salmon to put his oar in. Noting the absence of Simile the session with a c Forgers' Union leader George moderation. He did t Lykeness, he remarked that: reminded his audience,

"Hamlet without the prince is par for the course in this case." But in the wake of Mr continued Mr Crossbotham, he intended to take the game to the opposition anyway and say what he'd come to say regard-less, in spite of the unavail-ability of Mr Lykeness, whether

however . . .

anybody liked it or not. proposal received support from the Tautologists; but as soon as Mr Crossbotham announced his intention of "flying a kite on behalf of a no-strings policy", he was abruptly called to order, and eventually removed from the debating chamber altogether, still protesting loudly that it was a case of the

Chair wagging the dog.

Mr Jack Quink, representing the Simile Forgers, likened Mr Crossbotham's intervention to "a storm in an already overfilled teacup" and requested that a vote of censure be passed on the departed delegate, to repose confidence in whom, he suggested, was like expecting to extract blood from the Blarney Stone. Several bloodstained Irish delegates rose to protest. led by Dettol McCluskey of the Overwriters' Guild, who claimed that his members were "the flower of a sterile profession, standing head and shoulders above the dwarves on the conference committee". The proceedings were briefly adjourned for first aid and tea, during which a Fraternal Sentence from Mr Bernard Levin was formally read. Conference chairman "Troubled" Waters reo Waters reopened

the session with a call for moderation. He did not, he

chamber whistling in the dark, nor could he stand before the Spirit of History carrying a different kettle of fish from the one he'd already put where his mouth was. "If you don't want to burn the midnight oil", he admonished, "stay out of the kitchen". At the same time, he was fully cognisant of the potential knock-on effect of a belt-and-braces option, he added. "The last thing I want is to hear the public shouting 'a plague on both their trousers'.". plague on both their trousers' Resuming his attack, Mr Olivetti declared himself "deci-

go naked into the conference

mated" by Mr Waters' address. He had piled Pelion, Mr Olivetti said, On Ossie. Seldom had Mr Olivetti heard the gamut of cloud-cuckoo-land so

would surely tip the scales towards making the trade union movement the jewel in the crown on the scrapheap of history. When a fish out of water hogs the limelight, concluded Mr Olivetti with perhaps the shodow of a twinkle in his eye, it is on the cards that he won't know on which side his bread is buttered on."

When rapturous applause from the floor failed to evoke any response from the platform party, there were prolonged calls for mass resignations; but Mr Waters, seizing the microphone, announced the referral of all motions to everybody's executive "pending an amelior-ation of the industrial situation situation getting better" (loud shouts of "Yes!" from the Tautologists). As the din worsened, it was just possible to hear the chairman reconvene remorselessly run. Mr Waters the meeting for Tuesday week at the Meat Exchange, Macclestion, continued Mr Olivetti, and if allowed to bring home the bacon in the style to which he football" was abandoned.

Pirates buried it, ships sank with it, nobility was entombed with it, Irishmen mislaid it.

Paul Pickering meets today's high-tech treasure hunters and marks the spots where the fortunes lie

## From wrecks to riches

All the self-respecting treasure hunter needed in the old days was a rough map left by a pirate who didn't believe in banks and a blunderbuss stuffed with rusty nails to dispatch the partners in crime when the loot was discovered. Optional extras included an evil sounding name like Black Dog, a satirical parrot to undermine the confidence of rivals and a cabin boy with publishing connexions if the doubloons turned out to be duff.

Pirates seem to have had an obsession with burying things. Those early ploys by Captain Kidd and the like to reduce the money supply on board ship usually had the disastrous consequence of the crew turning against them. Walking the plank, sad captains may have pondered that the coonomist Keynes was right and they should have at least let the lads dig up the treasure more often.

But buried treasure is only the half of it. There are a quarter of a million wrecks around the coasts of Britain alone, many sill groaning with gold

and silver and jewels.

Locating wrecks can be just as profitable as striking oil and the modern L. J. Silver (Offshore Bahama) Ltd is more likely to be backed by City money than a fair wind and to employ a team of lawyers more effective than a blunderbuss. The parrot has been replaced by a concealed tape recorder to make sure details of "verbal agreements" are kept, and if L.J. has a limp it is from the weight in his wallet.

Anyone who gets in his way is likely to be sunk with a broadside of writs. No sooner does someone find treasure these days than barristers are pulling on their wigs and can soon decompress the confidence of any rogue diver without salvage rights.

The new Mr Silver will employ an army of divers and use the latest computers, robots, sensors and silicon-targeted cameras to locate the horde. He should also be prepared to take on governments. A major

diplomatic row blew up over the treasure in the Admiral Nakimov, the floating bank of Czar Nicholas II. 2 8,524 ton cruiser which sank in the Russo-Japanese war off the island of Tsushima with an estimated £1,700m in gold and platinum on board.

When Japanese divers from a boat called Heavenly Response brought up platinum worth £70m, the Russians said they should have been informed. The Japanese said they were only compelled to inform their ancestors and if the Russians wanted to see any of the platinum, they could jolly well give back four islands formerly the property of Japan. The row promises to run for years.

Politics raises its head, too, in the case of the Irish Crown Jewels. On July 6, 1907, the Irish Republican Brotherhood, forerunners of the IRA, blackmailed two homosexusls working in Dublin Castle to smuggle out the jewels and bury them near the little town of Greystones.

They were immediately picked up

for questioning by the British and executed by the Brotherhood as soon as they were released, normal practice with potential informants. Unfortunately, the commander in charge forgot to ask them where the treasure was buried before the triggers were

A "Roman galley" discovered off the coast of Brazil has not met with the approval of the government, which has been dumping thousands of tons of gravel on the boat. It wants of be descended from the Portuguese, not the Italians; possibly fearing claims of sovereignty from the Italianate Argentines if the galley was authenticated

When you get your treasure to the surface, it can be a disappointing concretion of barnacled coins. Mr Jack Slack, who recovered £3m in pieces of eight off Grand Bahama, kept it at home while the litigation rumbled on. "How do you expect me to clean with all this damn treasure everywhere," sobbed his wife.

**ROLAND MORRIS** 

Taking pot luck (Left)

And the most unromanue spots can conceal filthy lucre. Some £3m is said to be buried under Basingstoke by the fifth Marquis of Winchester to save it from Cromwell's troops. Lord Robens used to burrow under his house in West Drayton, Middlesex, but even his considerable mining experience failed to locate the £30,000 of treasure

said to be hidden there. The advertising agencies have also cashed in and commercialism threatens to devalue the art. Hard on the heels of trash sport comes trash treasure with chocolate companies and authors burying things, including clues in long and tedious books.

Treasure hunting has got to be kept pure and personally I will be looking for the £200 million golden Madonna of Cocos. The lifesize statue had been enamelled over by the original thieves who hit it in the jungle before murdering each other. Locals have since found it and it forms a simple travellers' shrine outside the pueblo of ... But that would be telling

and French divers; the underwater James Bond stuff. I was My husband lan, who is a pilot, dives too. I have been diving for 15 years with the British Sub Aqua Club and it's essential to have a good training. Sharks aren't a prob-

lem, I met some really friendly

ones in the Grenadines.

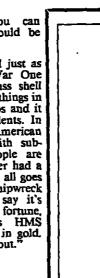

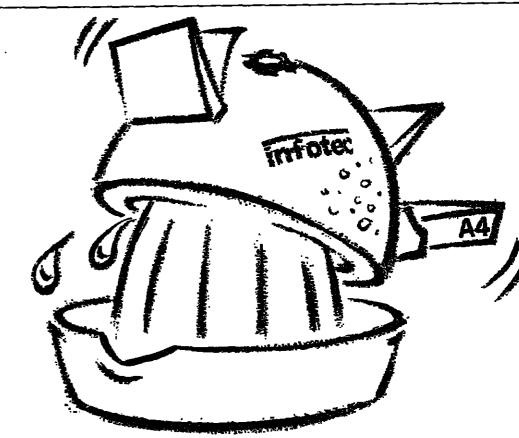

#### RICHARD LARN Down for grabs (Left)

"Three years ago with my wife I started the UK Wreck Register to try to collect all the information on shipwrecks around the British Isles. It soon the sea are up for grabs and it outgrew a manual and the can lead to ugly incidents. In computer was the answer to a the West Indies, American computer was the answer to a prayer. Now we have a £10,000 Tandy TRS 80 computer. What ship would I like to find the The Merchant Royal would be the one because it's a West Country wreck 10 leagues from Land's End and is very rich. It went down on Sep-

gold and jewels; you can imagine what that would be worth today.

easily be a World War One steamship carrying brass shell cases. Everyone thinks things in divers run around with submachineguns and people are killed. But I have never had a huge find diving and it all goes into the Charleston shipwreck museum. I wouldn't say it's possible to make your fortune rich. It went down on Sep- but then there was HMS tember 23, 1641, returning to Edinburgh with £40m in gold. England with £500,000 in silver, And there are others about."

# You can squeeze more out of an orange.

We colour our copiers orange - so you can tell them apart from the rest of the crop.

You will find a whole orange grove in the eastern shireshundreds of hard working Infotec copiers. The squeeze-minded Eastern Shires Purchasing Organisation (E.S.P.O.) for three county councils surveyed the competition, comparing range, copy quality, reliability, features, and price.

This confirmed their taste for orange.

They'd already had five years experience of our copiers, our supplies service, and our maintenance back-up, using our own specialist engineers.

So now you know why you'll see so many orange copiers in local authorities with heavy-duty, low-cost copying

requirements. Find out more. Peel the coupon.

**PARIS DIARY** 

Frank Johnson

### Bourgeoisie, aux barricades

One evening last week, I attended my first riot since taking up residence in Paris. It was only a minor, informal rior. No one was maimed: dress was optional; only the special police wore formal, steel hats. The function was thus similar to a dinner at which only the waiters wear evening dress. But anyone's

first Paris riot is always an occasion. The invitation was extended by several hundred extreme right-wingers taking part in a march. They chanted their intention of, at some unspecified point in the future, inducing President Mitterrand's departure from office, although they phrased it more obscenely. "Join us,

join us," they shouted.
The youths had attached themselves to, or were part of, a more bourgeois demonstration against the government's plan to secure greater state control of private, mainly Catholic schools. But such youths were in a minority. The march largely consisted of the well-dressed middle-aged and their children.

There had been early signs of a thirst for conflict. As the march reached the Rue de Rivoli, a delayed motorist had got out of his car and had started punching. On the face of that was not unusual. When delayed Parisian motorists get out of their cars, it is usually to make it easier to punch. The difference here was that, instead of punching other motorists, this man launched himself at several thousand marchers. He was easily restrained by the middle-aged, but a score of youths bore down from further back and seemed disappointed that his protest

was unideological. Later I emerged at a Metro station called Duroc, in the Boulevard Montparnasse, and found myself positioned exactly between the rebellious youths and a squad of helmeted CRS riot police, with shields and truncheons, who were running towards them.

Safely behind a verbal sidestep

According to the British liberal press down the ages, these policemen are, at functions such as this, in the habit of clubbing mere speclators. It may even be true. So. instead of courting suspicion by running away, I put my hands in my pockets, and assumed an air of incomprehension. A CRS man drew level."A robbery?" I asked. "No." he replied, "a demonstration," Our idiotic conversation completed, I remained unharmed. Behind me. the waiters were removing the tables and potted palms from the pavement in front of a restaurant with a speed born of centuries of experience of these emergancie

For the next hour, the youths would gather at a street corner and hoot at the CRS, who would run to that corner while the youths retreated to another. The CRS, because of the informality of the riot, made no physical contact. Eventually, some of the youths moved outside of sight of the CRS. tore down the wood and canvas around a building site, strewed it across the Rue du Depart to form a barricade, and set it alight to a chant which could be translated as "Hot hot, hot! The spring is gonna be hot!" Three press photographers

recorded this operation.
It seemed ideologically unsound for a right-wing mob to interfere with the property rights of a private enterprise building firm. But the youths showed a respect for consumer durables by courteously lifting two small cars out of the way of the barricade. Interestingly, a few of the middle-aged appeared to be assisting the youths. The CRS continued with their policy of nonintervention. Eventually, three fire engines arrived to douse the flames. after which the CRS ran down the street, and the youths retreated. After that it was time for all of us who had assisted at the soirce -TRS, incendiarists, photographers and speciators - to call for our arriages and go home. A much rigger march on the same theme is planned next month.

D Several letters have reached me isking whether, in my item last veck mentioning the Duc d Enghein. he Prince de Broglie. BARRY FANTONI

## Be done with Lord Wolseley

by Woodrow Wyatt

Last Wednesday a Times leader described the Government's position on the Channel Tunnel as clear cut and admirable: "It is not a through the tunnel by 6,000 troops who would rapidly seize Dover and project which warrants the use of public funds". The Financial Times secure a bridgehead for a full-scale was less emphatic: "neither government nor market should support the The prejudice against being linked project unless it is economic", it said, with the hint that perhaps the

with the Continent remains the same. It is the excuses which change. When Tony Crosland was the relevant minister, the Anglo-French British and French governments and the EEC should seriously consider the use, or backing, of public money.

The Guardian, wholeheartedly pro-EEC, wrote: "Given the economic and social advantages to this scheme, on the edge of fruition, was squashed on the convenient grounds that we could no longer afford it country, Mr Ridley (Transport Secretary) would be profoundly foolish not to help the capital because one of the frequent economic crises which afflict Labour governments required spending markets along."
The attitude towards a Channel The French have been willing to

cooperate ever since the engineer tunnel, or bridge, varies according to enthusiasm for the EEC. Those who Mathieu mooted the project to Napoleon in 1800, though that was are hostile towards it, or lukewarm, hardly a propitious time to gain British acceptance of a tunnel. The trot out the financial risks. The latest gambit of those who idea progressed on both sides of the Channel at the prompting of Napoleon III. After Bismark rewould like to be thought in favour of the European idea but are actually reserved about it is to say the permanent link would be fine if moved him, the British government became almost active, and tunnel private enterprise paid for it

> A permanent link between Britain and the Continent has nothing to do with cost, whether it is a £3 billion suspension bridge or a £2 billion rail

workings were begun. Then Lord

Wolseley's intervention put a stop to

tunnel. The issue is whether we feel in our hearts that we are genuine Europeans or whether we wish to keep our distance. The cost can

always be managed, even if tolls and charges take 100 years to amortize it.

The French are ready to pay half and do not in the least mind giving financial graphs are ready to pay half and do not in the least mind giving financial guarantees if private enterprise cannot foot the whole bill. The EEC would also be prepared to pay substantially because of the benefit to Western Europe as a whole.

Spread over the years, the cost would be relatively trivial compared with other public spending, some of which, like Trident - forecast to cost £8,7 billion over the next 15 years may be unnecessary and certainly will not contribute to our prosperity. The real question is, do we want a permanent link with the Continent? Do we feel safer psychologically if we can get at them, or they at us, only by air and ship? Would it be an unpleasant reestablishment of the umbilical cord broken when the North Sea flooded over the land link 10,000 years ago?

It is our hesitation, possibly subconcious, which makes the French and others in the EEC suspect that we do not genuinely want to build a united Europe and prefer to be Little Englanders. How dull and unimaginative,

symptomatic of our declining energy and enthusiasms. The Channel link - and I would prefer both road and rail - would be exciting in its novelty from the moment work began. It would create new jobs, cut the cost of our exports and add a new dimension to everyone's life. Popping off to France or a neighbouring country by car for a day or two would become natural and easy instead of an undertaking requiring weeks of preparation.

We would become as used to crossing national borders as the Germans, the French, the Italians, the Belgians and the Dutch. And we would not be forced to pay monstrously high air fares every time we wanted a short trip abroad. Because they can cross frontiers so easily by land, continentals are less fussed about high inter-European air

fares than we are.

A permanent land link with the Continent is a youthful idea full of hope and adventure. Are we becoming so old and arthritic a nation that we are becoming frightened to get out of our beds? The SDP/Liberal Alliance could make some useful mileage on June 14 if it loudly and boldly went nap on a Channel link and damned the

#### James Campbell on a challenge to Scotland's literary defeatism

## The tree that never grew

"Things would have been different if we hadn't been Scots", says a character in Allan Massie's new novel, One Night in Winter. "It made us in love with defeat." The Scots themselves acknowledge that they are expert at failure; it has become a part of their mythology. Each generation experiences it differently, but to each comes the realization, as painful as it is inevitable, that it is living in a nation which has been in decline for centuries. Equally painful, because it requires an admission of impotence, is the knowledge that without at least a token political apparatus there is no means of arresting the

entirely. That is an improvement on

1883, when a joint committee of both Houses of Parliament rejected

the idea on military grounds. They

had been alarmed by Field-Marshal Lord Wolseley, who had described to them an imaginary invasion

On the other side of the Scots' training in defeat, however, lies their resilience. There is always some kind of revival going on. Five years ago, the biggest one of the century reached its anti-climax when the referendum on devolution failed to gain a large enough majority to breathe life into the proposals for a Scottish Assembly in Edinburgh. Hope for that token of self-determi-

As a novelist, Allan Massie would have had particular reason to lament that latest defeat. The absence of real political activity and all its consequences means that novelists lack the complex social background against which to set their stories which writers in other nations take for granted. This partly explains why one of the Scottish writer's favourite subjects is childhood - the one truly apolitical part of a person's life and also makes some sense of the misty Scotch romanticism which exists to obscure a reality which is

Another revival went the same way recently - a Scottish Arts Council-sponsored scheme to create a paperback fiction list and keep it in print. The lack of such a list, indeed of any mass-market paperback publisher in Scotland or an English one willing to give Scottish fiction proper attention, means that the number of Scottish novels in circulation at any given time is very low. This in turn means not only that authors are deprived of adequate reward for their efforts, but that discussion of their work among critics and general readers alike is hindered.

Unfortunately, at the end of last year the paperback fiction scheme went roughly the same way as the assembly: most people seemed to consider it a good thing but not enough voted for it (this time in the Scottish Arts Council's headquarters ia Edinburgh).

Some novelists surmount these problems nevertheless. Both Alasdair Gray's 1982, Janine and the new Massie novel are bold enough to make the absence of politics a central part of their substance. Jock MacLeish, hero of Gray's book, frequently digresses into politics in between pornographic fantasies. Massie, for his part, has written about politics before. Three years ago he produced a novel about a political murder, not surprisingly, however, he had to leave Scotland (for Rome) to find it. His new novel

Both Massie (top left) and Gray have made the absence of politics a central part of recent novels, Bottom, Trocchi, Hind and Kelman, all confronted with problems unknown to writers south of the border

is an artfully fragmented narrative built around the death of a leading SNP figure - and, correlatively, the

decay of its Scottish narrator. These attempts represent something of a departure in modern Scottish fiction, and suggest that even if the events leading up to 1979 cannot offer the real political backdrop which novelists need, they

can at least be used as its emblem. New novels by Alasdair Gray and Allan Massie should have little difficulty in finding their way into paper covers - not made from Scottish paper - and perhaps their success will stimulate publishers' interest in other work.

Some novels do survive, and

there was cause to reconsider two very good ones recently. The Dear Green Place by Archie Hind was the only serious contender for the title "the great Glasgow novel" before the founding (any other word is inadequate) of Lanark by Alasdair Gray. It was published in 1966 but had long been out of print until Polygon Books of Edinburgh re-issued it in paperback on April 12. Cain's Book (1960), a novel set partly in Glasgow and partly in New York, is the major work of Alexander Trocchi, who died in London three days later. They are very different books: Trocchi owes much to European modernism, Hind to nineteenth-century realism; but they have in common at least one factor which may reveal something about the effect of Scotland's impotence on its writers,

The Dear Green Place portrays the life of a working-class family at whose centre is an aspiring writer, Mat Craig. He works first in an office, then in a slaughterhouse, then not at all. while struggling to bring his novel into being. Hind's is very much a "first-novel" type of novel, autobiographical in tone, gauche and verbose in places, but forged out of tremendous energy and imagination. It is a fitting tribute to the city of its creation - a compliment which, it must be said, cuts both ways. For at its close, having failed to write his novel (which, one resembled The Dear Green Place,
Mat stands on a bridge over the
River Clyde, reflecting on the city's frustrated potential and how he, as a failed writer, has turned himself into a kind of living metaphor for it. hearing in his head the fingle that

accompanies Glasgow's coat-of-This is the tree that never grew, This is the bird that never flew, This is the fish that never swam,

This is the bell that never rang. Cain's Book, written six years earlier, is plainly visible in parts of

The Dear Green Place. It is a work of greater technical daring and sophistication, but like the later novel it too centres round the tree that never grew", focusing on a Glasgow man struggling to write a book which in this case is deprivation which impedes Hind's hero: "the background against which a novelist might set his scene, the aberrant attempts of human beings and societies to respond to circumstances violence, activity, intellectual and imaginative ardour, political daring. All that was somehow missing from Scottish life. In lieu of (it) there was only a null blot, a cessation of life, a dull Trocchi fled; Hind found a way of

employing that dull absence as his actual subject matter. But it says a lot about the Scottish predicament that two of the most eloquent voices of recent times should have told their stories around the problem of finding a story to tell.

However, the difficulty is greater still, for it begins not with the story but with the voice. The southern English writer's voice is formed in Shakespeare, the King James Bible, all the literary and philosphical movements which were products of a civilization assured of its capacity and standing among comparable

civilizations. The Scottish writer cannot share this assurance. While he speaks in one dialect, for example, he may feel it is "correct" to write in another; his literature (and his history) is written in three different languages -English, Scots and Gaelic - not all of which is he likely to understand. Moreover, the dialects of indus-

trial cities such as produced Trocchi, Hind and Gray, are limited in range, being the tool of people whose immediate concerns are necessarily basic.

Some writers, like James K. author of The Busconductor Hines. have turned the linguistic dilemma to their advantage, and in different ways both Massie and Gray address the subject in their latest novels. All are aware of what significance these conundrums have for them at the

Meanwhile, resurrections continue to push up through the hard earth. During a week in May, Scottish writers congregated in Glasgow to celebrate what the publicity for the Strathclyde Writers' Festival called "Glasgow's revitalised awareness of itself

Which begs the question: If Archie Hind were revising The Dear Green Place to suit the temper of a "revitalised" Glasgow, would he empower his hero to complete his novel? - to let the tree grow and the fish swim and the bell ring?

I doubt it. "I've seen the inexorable force history exerts on the living", says a character in One Night in Winter, it was the refusal to face that force which created the cult of defeatism and the corresponding romantic cult of all things tartan. It is for novelists now to tell the story as it really is.

Times New

James Campbell is the author of Invisible Country: a Journey through Scotland (Weidenfeld & Nicolson). One Night in Winter, by Allan Massie, is published on June 7 by Bodley Head, (£7.95). 1982, Janine, actually called Cain's Book. Joe by Alasdair Gray, is published by Necchi's case is complicated by other factors, including drug addiction, but he shares the sense of by Polygon (£4.95).

### Why Reagan still rides tall

When will they see through Reagan? Such is the puzzled, exasperated, if still often unvoiced response of most European observers to events in America. By "observers" I mean, of America. By observers a mean, or course, serious, important people like you and me – politicians, diplomatists, military strategists, journalists, readers of The Times.

"Surely", we mutter, "the Americans must understand that his economic policy is childishly short-sighted. Can't they see that his foreign policy is little more than a sequence of gestures which are usually futile, sometimes illegal and sometimes both? Don't they mind that his treatment of the western alliance is so clumsy and thoughtless?" Alas for our sensibilities, and hard cheese to our logic, apparently they can't and they don't. The US public seems beautifully uncon-cerned by the largest budget deficit in human history; it appears unembarrassed by the ludicrous sight of the world's last battleship

firing aimlessly into a Levantine hillside or by the nonchalant scattering of American mines across Vicaraguan waters. They do not, in short, give a toss. Perhaps they may come to give a toss whan Mr Reagan gets his comeuppance, when inflation begins to climb and the dollar begins to sink, when his Central American policy falls apart. But then, perhaps even if these things happen, they will not happen until after the election in

Until they do, European observers will, as usual console themselves with various theories about what is happening. We shall be told that there is a "new isolationism" sweeping the US, or that it is now a Pacific-oriented nation" or alternatively that "America has redis-covered the Americas".

We concoct these theories, partly to give our self-esteem a reason for being treated so cavalierly, but partly because we are hooked on a vision of America as a highly volatile, innovative society in which Something is Always Happening - as the place where the action is. This vision is expecially congenial to British journalists who are treated with so much more respect in Washington than at home.

I think it is really much more helpful to start from the opposite assumption: that little or nothing ever "happens" in America in that sense, and that the action is usually somewhere else.

You only have to travel a few hundred yards from the White House press room to realize that America is an immensely conservative, not to say comatose place.

In the cities, the men wear threepiece suits; in the country, old men still sit in rocking-chairs on veran-dahs; the newspapers still look like they did in *The Front Page*; the politicians and judges argue about the interpretation of a constitution which is now very nearly two centuries old (in Britain, two decades is long enough for a tradition to crystallize); the modern obsession with ideology is confined

to a few freaks; indeed, on the whole. Americans tend to vote rather sparingly; and in political life, an unbuttoned, eighteenth-century, attitude towards patronage and bribery still prevails; at any one time, up to a quarter of the Congress may be in trouble with the police on a variety of financial and sexual peccadillos. In Britain, one visit to a

strip club and you hit the headlines. This large, sloppy, slow society, blessed with cheap fact cheap land and cheap food, is also the most irrepressible producer of wealth on earth. There is no contradiction between political torpor and economic energy; think of the blessed days of Sir Robert Walpole, or the

Kissinger and Haig: grand strategie out of tune with national thinking advice Guizot gave to the French people in the dog days of Louis-Phi-lippe - "Enrichessez-vous!" But you must not expect such a

nation to pursue with any zest or tenacity a grand strategy at home or abroad; that is where Dr Henry issinger and General Alexander Haig came unstuck and the same goes for Mr Marry Feldstein, the President's departing economic adviser. The policy of such a regime will be mostly a matter of gesture and rhetoric, good-humoured, short-lived, irresponsible, unless driven hard by inescapable realities.

All this may be sad for those observers in Europe who have other things to think about than how to upstage the California Democratic primary. But not so sad for the millions who fled Europe in the first place partly in order to get away from politics. Part of the blessed-ness, the "exceptionalism" of America is its torpor, and President Reagan is in no danger of forgetting

For Mr Reagan is a specialist in torpor. His days on the ranch, far from wasting political credit, ac-cumulate sympathy by radiating personal well being and national contentment. His critics are as foolish as the critics who berated Eisenhower for spending too much time on the golf course. When trouble looms, all that people wish to know is that it has been dealt with, swiftly, unobtrusively and, if need be, ruthlessly. They do not want their president to bang on about it. Mr Reagan may be less wise than Ike, but he is just as adept at skipping out of trouble without a mark on him.

A cowboy? Why not? The Europeans think of a man careering around with six-shooters blazing. Americans see a man sitting tall and casy in the saddle, half asleep, watching cattle munching.

## Slackening off the stockbroker belt

Food. I have come to the conclusion that we - the we, that is, that constitutes late twentieth century western society - have become obsessed with it. A future historian of social psychology may be able to comment intelligently on how it comes about that this uniquely wellfed population spends so much not just of its money, but also of its time and imagination, on the whole

business of eating. Maybe the intelligent comment would go something like this. "In the decades after the Second World War, the people of the West enjoyed for the first time a large surplus in food production, and embarked for several generations on a collective binge. Obesity became a serious problem, and consequently more than half of all adults at any one time were attempting to lose weight. This rapid alternation of licensed greed and self-imposed frustration made food into a continuing preoccupation

Dieting is big business, almost as big as gastronomy. The two compete with, and depend on, each other. Without the constant failure of dieting under the onslaught of gastronomy, there would be no market for yet another fail-safe diet. Without the hunger brought about by periodic dieting, the temptations of gastronomy would pall.

Contemporary fiction is full of food. The novel I am reading at the moment, The Sea, the Sea by Iris Murdoch, has as its hero and narrator a retired theatrical celebrity with a most engaging philosophy on the subject: "How fortunate we are to be food-consuming animals, Every meal should be a treat and one ought to bless every day which brings with it a good digestion and the precious gift of hunger."

But he abjures haute cuisine and ostentatious dinner-party cooking ("What is more delicious than fresh hot buttered toast, with or without the addition of bloater paste? And well-made portidge with brown sugar and cream is a dish fit for a king."), and cooks instead, with what he calls an intelligent hedonism, cheap, quickly prepared snacks in an enormous variety. Every few pages there is another mouth-watering example - exept for a few long stretches (during which the reader gets very hungry) where the writer's emotional termoil is such that he loses his appetite.

But the best fusion of the delights of the gratification of hunger and philosophy comes from C. S. Lewis. in his children's books about the mythical country of Narnia, the struggle between good and evil breaks off at regular intervals for the most delightful meals – a stew of wood-pigeons cooked with a special Namian herb, trout fresh from a magic stream, hot boiled ham and gooseberries, redcurrants and cream which he somehow manages to infuse with a sort of wholesome holiness.

But, devout Christian as he was, what would he have thought of the experience that originally provoked this article? On a walk over the Sussex Downs one recent Sunday afternoon I looked into a small, carefully restored twelfth century church, full of medieval brasses and ancient memorials. On the way out, my eye was caught by a striking and colourful poster which quite put to shame the other usual notices about parish council meetings and flower-

arrangement rotas.
It looked rather like an advertisement for Portugal. Beside a delicate wine glass, brimful with rose wine, dewily chilled and with a Mediterranean sunlight filtering through it. was a round, fresh, crusty loaf, with one slice temptingly cut. It was captioned:

Jesus of Nazareth Requests the honor of your presence At a dinner To be given in his honor.

And underneath were the times of Holy Communion

The spelling gives away the transatlantic origin of this extraordinary invitation but clearly some-body connected with the church thought it would appeal and attract more regular communicants. It looked the sort of village (sleek fat ponies, and expensively converted : barns) where in flagstoned kitchens fridges full of pate and mayonnaise fridges full of pate and mayonnaise and taramasalata stand next to pinc dressers holding copies of The F. Plan Diet. The 3D Diet and Slimmers Cook-Book. (Yes, I am reading off the titles on my own kitchen shelf and thinking ruefully of the contents of my own friday. of the contents of my own fridge, though I do not own a converted Sussex barn)

Would such an appeal work? And even if it did work there, I could not help wondering how it would be received by the congregations of, say, a worker priest in Nicaragua or a missionary in Ethiopia. Where hunger is real might not such a message sicken and infuriate?

But perhaps it is merely a matter of the church speaking to each group in its own language: the way to the affluent society's soul may after all be through its stomach.

The author is SDP member of the GLC/ILEA for St Pancras North.

## Closing the gates on the stately gimmick

For the owners of Britain's historic Rockingham from his uncle, has country houses the last two years have been difficult ones. Falling numbers of visitors, mainly a result of economic recession, induced fears that public interest and support were on the wane, that the pleasures of roaming through state rooms, long galieries and formal gardens were becoming less appreciated.

This year the warm dry weeks of early spring, and an uncharacteristically sunny Easter, brought capacity crowds and has done much to restore morale.

For Commander Michael Saunders Watson, president of the Historic Houses Association, the 2,000 or so people who turned up on the bank holiday Monday at his home. Rockingham Castle, on the outskirts of Corby, Northamptonshire, were almost too much of a good thing. "It was really rather dreadful", he recalls, "and in the end we felt we had to give some people their money

Useful though they may be as a source of revenue, however, paying visitors cannot alone meet the costs of maintaining stately homes in the splendour in which they expect to find them. Commander Watson, having been forced to cut short his naval career when he inherited

since turned himself into a formidable tax expert, ready and able to confront the Inland Revenue on all the intricacies and iniquities of capital transfer tax, relief for maintenance funds and exemption from VAT.

and therefore, finally, on its people

it is largely because of this and his fellow owners' persistent lobbying that they now enjoy a range of tax privileges which have enabled them to continue to occupy their ancestral homes. To some people that may seem inequitable, but it is almost certainly cheaper than the alternative of "nationalization".

For those with the space and acumen, such as the Duke of are horrifying, just for food alone. and that sort of thing is a bit passe anyway.

Bedford and Lord Montagu of Beaulieu, the real money had been made from funiairs, museums. safari parks an pop festivals. Now that particular bubble has burst. As Lord Montagu puts it: There is a safari park within 30 miles of almost everyone in the country. The costs

The established tourist complexes like Beaulieu, Woburn Abbey, Longicat and the phenomenally successful Alton Towers, in Staffordshire, which last year attracted more

less continue to thrive. But the disastrous experience of Lord Brownlow, who tried to do the same with Belton House and has since handed it over to the National Trust, has provided a salutary warning

than a million visitors, will doubt-

Speciacular houses with large grounds and estates, which lend themselves to commercial exploitation, are in any case the exception. Most of the association's 1,200 members live in places which will never lure people in large numbers, and fewer than a third of them think it worthwhile opening regularly.

Those that do so find that income from tourists seldom covers costs. There are some tax advantages, and public grants for repairs and maintenance are usually conditional upon public access, against which have to be set the often exhausting work and disruption of family life. Michael Watson is emphatically

not coposed to commercialization. for those who can make a go of it. He would like to see more sponsorship with firms "adoping" particular houses.

But he insists that the main task of the association is to ensure that historic houses continue to be turned into museums. The more the public have access, the greater will be the degree of public support and sympathy.

gone.

years ago. Often they come to see some specific thing, and of course nowadays in gardens. We get a lot of children and young people particu-larly on holiday weekends, and we've set up a heritage education trust to tell them more about the history of what they're seeing.

### SEND FOR LORD ROTHSCHILD

Cabinet Government was designed by Lloyd George and Sir Maurice Hankey at the height of the First World War. In nearly seventy years the size of its supporting apparatus, the Cabinet Office and its network of Cabinet committees, has waxed and waned. But the Cabinet machine over which Mrs Thatcher presides is, in its essentials, a 1916 model. Under the pressures of 1980s government, the metal is spalling and the superstructure buckling Lord Hunt of Tanworth, the fourth man to hold the post of Cabinet Secretary in line of succession from Hankey, said as much last year. Last week, his former colleague, Lord Roth-schild, first head of the Think Tank, the Central Policy Review Staff, said the system placed intolerable burdens on ministers. They could not cope. For him. the prime task of a would-be reformer in Whitehall should be to do something about it.

Lord Rothschild's remedy is to attack the problem from two early warning system is already Mrs Thatcher. I directions. First, ministers there. The JIC's economic taken at his word.

should be more discriminating in their use of time. There should be more thinking and less naming of ships. Secondly, they need an early warning system to give them a chance of coping with potential disasters. He had a go at constructing one while working for Mr Heath in the early 1970s. Whitehall was nervous the stuff might leak and cause a fuss. Lord Rothschild is convinced it could be built and operated in a secure fashion.

The model, in fact, already exists. It is housed in the Cabinet Office a few floors above the suite once occupied by Lord Rothschild. It is called the Joint Intelligence Organization. It does for foreign and defence policy what Lord Rothschild wants his brainchild to do for economic and domestic policy. Each week its current intelligence groups report to the Joint Intelligence Committee. The JIC prepares a "Red Book" of summaries which ministers receive on Thursdays.

The embryo of a domestic

sub-committee given a new lease of life recently on the initiative of Sir Peter Middleton, Permanent Secretary to the Treasury, regularly provides material that could easily be blended into a JIC for the home front. Similarly, the Cabinet Office's Civil Contingencies Unit, which advises ministers on the handling of industrial disputes that hit essential supplies and services, has decades of accumulated experience to offer to a new home intelligence organization. Furthermore. in the past decade, the Cabinet Office's anti-terrorist capability has acquired much hard-won

know-how. Money and manpower devoted to a small, home-oriented early warning machine would be resources well allocated. It could give the Cabinet a better chance of becoming the master rather than the prisoner of events. Lord Rothschild is sure that in combination with Sir Robert Armstrong, Secretary of the Cabinet, he could build one for Mrs Thatcher. He should be

#### TREATING WITH GUERRILLAS

As President Duarte assumes popular with all army officers. office in El Salvador the first pronouncements have come is lost. There is rarely such a from the FMLM about the thing as a militarily neutral possibilities and the impossibilities of "dialogue", ranging well aware of the potential shots in a new phase of that war. Today in Colombia is the date and regrouping, in coming up for announced for the beginning of a air. the calendar pigeons.

Every four years or so in modern had despoiled our downs, coves

and to some that will inevitably look too like defeat. In so far as rebels are not frustrated democrats, and many of them are not,

both sides cannot win. It is surprising that outside observers so often imply that dialogue or even "power sharing" - this last surely a rare phenomenon anywhere - can be easily achieved. If something other than government capitulation is meant by negotiation then it is clear that guerrillas will only be brought to negotiations by a government that is militarily superior.

It is the beginning of new testing times in Colombia and in El Salvador. In Colombia. though under increasing criticism from left and right, President Bentacur has in the matter of amnesty placed the onus of proving their sincerity squarely on the guerrillas. The country's reaction to recent guerrilla actions has been growth in support of a harder line, a lawand-order current reinforced by last month's assassination of the amnesties cannot be indefinitely remodelled and prolonged.

In El Salvador President Duarte has been weighed and found wanting by many a critic, even before taking office, though what these critics themselves propose is not usually apparent. Such impatience implies that there is some rapid solution. But some things take time, some things are not possible, and some things are neither possible nor desirable. In El Salvador too there are concessions that should not be made.

The national disinclination to

do anything conveniently well-

ordered is of a par with the

disinclination to show solidarity

with the world's workers by

Mayday....

LETTERS TO THE EDITOR

#### Time to end the PNL militancy

Sir, The letter from members of the the court of governors (May 25) could not better illustrate the difficulties in which the Polytechnic difficulties in which the Polytechnic of North London finds itself. They argue that Mr Harrington's presence has introduced "fear into the classroom" and that the militant students are "frightened young people worried by what could happen to any whose names and addresses were made public in court". The presence of one racist has polluted the polytechnic, shat-tering the confidence of the students. Fear stalks through the corridors and learning withers.

Who among your readers, do they think will be taken in by such rubbish? The militant students are not "frightened young people" and press photographs of their faces show that fear is certainly not the emotion that grips them. When no other cause is to hand racism is the issue which the militants at PNL always resurrect to prolong the tradition of disruption there. It was the charge flung at Dr Terence Miller in 1973 when, as director, he was knocked down by militants, the court of governors disrupted on six occasions and those who supported him were insulted and intimidated.

Is it likely that public confidence in PNL will be restored when one of the signatories of the present governors letter gave open support then to Terry Povey and Mike Hill. the students who organised the disruption of the court of governors itself and opposed the drawing up of a code of conduct? Now, as then, the governors refuse to implement the code of conduct.

The policies of the National Front are degrading and despicable. So are the policies advocated by the Militant Tendency. But academic institutions of any standing have for long accommodated the minority of students who hold extreme views; and after three years of education by their contemporaries as well as in lecture and tutorial, such students often change their views.

Apparently no such opportunity to grow up is to be given to Mr Harrington. Could anything be more likely to confirm him in his politics than the governors' proposal that he be given private tuition with the result that the militant students would be able to boast that once

again they had been successful? Some commentators have considered it faintly absurd for Sir Keith Joseph to have concerned himself about the state of the sociology department at PNL. Did it not remind one of Winston Churchill appearing, when Home Secretary, at the Sidney Street siege?

On the contrary: Sir Keith has good cause to be irritated because the governance of PNL has been a scandal for over a decade. The secretary of state is powerless to change the membership of the court of governors. All the more reason, therefore, why institutions such as ILEA should call their representatives on the court to account and, if necessary, change them. Yours faithfully,

NOEL ANNAN. House of Lords. May 26.

#### Keeping quiet

From Professor R. J. Berry Sir, It is a relief that British Rail's market research "shows that a lot of passengers don't want video" (report, May 15). What about the opposite: have silent compartments ever been considered?

One of the tremendous benefits of trains is the opportunity to read, write, or simply think without visitors or phone calls, and this opportunity can be ruined by other people talking (or worse, playing transistors, even with earphones, which usually seem to leak).

Rail productivity (of passengers) be increased simply and cheaply by the introduction of silent compariments with, I assume, no union opposition.

Yours etc. R. J. BERRY, Quarfseter. Sackville Close. Sevenoaks, Kent. May 17.

#### Missing wheels

From Mrs G. Learner Sir. My reaction on reading Mr Fry's letter (May 22) was to congratulate the Liverpool International Garden

Festival on their provision of wheelchairs for casual visitors.

During the past 18 years I have accompanied my paraplegic husband and his wheelchair to a variety of public buildings and events and have never encountered more than three wheelchairs provided for

casual use at such places. The vast majority of wheelchair users bring their own chairs with them since they cannot do without them. Liverpool, with their "special planning ensuring easy access to all areas for disabled visitors", would appear to be top of the league. Yours faithfully

GWYNETH LEARNER. 11 Prince's Gardens, SW7, May 22

#### Out of touch

Магаzіоп,

Cornwall.

From the Reverend Charles A. Roach Sir, Your correspondent, Mr Ian Callow (May 22) is out of touch with the fundamentals of good running. At Cambridge, over 50 years ago, one learned that for good, smooth running over long distances, one should hold one's head slightly down, and leaning forward, thus assisting the movement. I am, Sir, your obedient servant, CHARLES A. ROACH, Trehoward, Green Lane West,

#### Hard realities in the arms business

Defence Manufacturers Association Sir. We are pleased to see (May 18) that the working party com-missioned by the Bishop of Ports-mouth and others to consider ethical issues in the manufacture and sales of armaments appreciates that, in the world in which we live, there is unfortunately a need to manufacture conventional weapons and other equipment to be used by our Armed

Forces as a deterrent.

The working party also agrees that is not immoral or unethical to supply other (friendly) nations, which lack their own manufacturing capability, with weapons and equipment, should they freely request

However, the working party has drawn attention to two areas which it considers to be of concern, namely, that financial profit has become a dominant fact in overseas sales and that this can cause impoverishment in developing nations.

We would like to point out that as the British security forces are relatively small in size they do not provide a market of sufficient size alone to support the British defence industry, who must sell overseas to those of our friends and allies who need the equipment if they are also to be able to support the British security forces. As with any other industry, sales must be made at a reasonable profit, invariably against strong competition, in order to enable the industry to continue to exist.

No sale of armaments takes place unless there is a licence granted by government (not just by the MoD). In this way there is a safeguard to ensure that no impoverished nation, or indeed any other nation, is sold British armaments if it is against UK Government policy.

The bishop and his associates ropose that MoD-sponsored exhibitions should be discontinued because this is "hard selling". If he accepts that supplying equipment is acceptable in the first place - as he does - then he must allow that some activity has to take place which allows the potential supplier to meet the potential customer. Exhibitions are an ideal meeting place and, as anyone in industry will confirm. 'hard selling' has no place at exhibitions.

There does, of course, come a point in most negotiations when the product or service must be successfully sold against the claims of one

From the Director General of the a situation which is likely to occur at exhibitions. It is a part of the usually protracted — negotiation phase which takes place before any export contract is placed.

It is unfortunate that we live in a world where armaments are still required to preserve the peace. Under the circumstances we believe that the British defence industry. working within the export controls laid down by the British Govern-ment, conducts its business in a completely responsible manner and the worst fears of the committee are unfounded

Yours faithfully. R. H. PURVIS, Director General, The Defence Manufacturers Association. 136 High Street, Guildford,

From Mr D. L. Giles some of the Hampshire bishops' strictures (May 18) concerning the

require, this Government is committed to "privatization" of our warship building yards. There is little possibility of them being attractive to private investors unless they are either able to increase their turnover, profitability and competitive performance by selling to foreign navies (as they have conspicuously failed to do for the past twelve years); or unless the Royal Navy pays more and more for an ever smaller number of ships (warship costs rising today at about three times the increase in the money available in real terms); or unless there is a massive increase in the Defence funds available for the purchase of warships for the Royal Navy.

There is a fourth alternative: for the Royal Navy to buy its ships abroad. However, this might mean the vendor nation interfering with the requirements of God, as outlined by the bishops; and this, in turn, might mean the end of the Royal Navy as a viable defensive maritime force.

DAVID GILES. Lid. 24 Seymour Road, SW18.

#### Teachers' pay claim

From Mr R. L. Fanthorpe Sir, May I be permitted a brief comment both on your page 13 editorial. "Teachers' tantrums" (May 21) and on the excellent letter on the same page from Mr R. J. Brind.

editorial which must command the agreement of any fair-minded reader, e.g., "... Teaching has never attracted entrants by high rates of pay . . . Job satisfaction is a principal motive for choosing teaching ... Some teachers are certainly not well remunerated for the effort they

species doesn't exist. Because the ascent of Everest, or swimming the Channel, is not easy to carry out does not mean that it is "folly" to attempt such enterprises. Very often the most daunting and difficult tasks

By arguing that comparing the pay of a miner, a teacher, a doctor and a physiotherapist is inconsistent with a free society, are you arguing that it is more acceptable to allow the groups with the most muscle to extort more pay than those without

I do agree, absolutely, with your editorial comments on the unprofess ionalism of the present industrial disruption by teachers. It can achieve nothing except the alienation of public sympathy, which ought to be the teachers' most

#### Zionism and the facts From Mr Lenni Brenner

Jews". My source was Benyamin Matuvo, 1966-67. Issues writing in the winter, 1966-67, Issues magazine of the American Council for Judaism. But we can go straight to Weizmann's Letters for confir-mation of his views on German Jewry. In a February 27, 1913, letter he dealt with German academic antisemitism:

antisemitism:
It's perfectly natural, the British students would do exactly the same thing...what would happen if 200 poor Russo-Jewish students would come up to Cambridge...? Neither the students, not the authorities, would ever allow such a thing...the arguments which the German students use – some of them at any rate – are very strong.

strong.
In a December 14, 1914, letter he wrote that We too are in agreement with the cultural

Sir. Although one must agree with unrestrained export of conventional weapons of war, their logic is at fault in one vital area.

Whatever God may or may not

Yours faithfully, Thornycroft, Giles and Associates

I believe that what is morally right

can never be politically wrong. It is

morally right for teachers, in today's

extremely stressful conditions, to be

paid a great deal more than they are

getting. It is also morally right that

teachers should not strike or disrupt

their pupils' education in any way.

Using pupils and parents as hostages

is morally indefensible: they are not to blame for low pay. The Professional Association of

Teachers is just as angry and just as

indignant about pay levels as our colleagues in the "militant" organis-

ations, but, convinced that two

wrongs will not improve the present

situation, we reject the argument of

put into their work ..."

But can it seriously be asserted that attempts to compare teachers' pay with that of other professions "folly"? Can it be seriously maintained that there is no such

thing as a "just wage"?
Simply because specimens are rare, we have no right to argue that a are the ones whose completion brings most satisfaction.

muscle in any discernible quality? Or are you arguing that scarcity value of a rare skill or talent confers the right to high remuneration on the basis of supply and demand? Neither industrial muscle nor supply and demand seems to have much to commend it in terms of moral value.

Hovever difficult and unpalatable you may find it to reach the conclusion, the inevitability of the conclusion remains: even Houghton ten years ago did not really raise teachers' pay to a just or comparable level - and we are now well over 30 per cent down on Houghton.

effective weapon.

Sir. Daniel Gruenberg (May 12) challenges my utilization in my book, Zionism in the Age of the Dictators, of a quote from a March, 1912, speech by Chaim Weizmann: Germany already has too many

mites, in so far as we believe that

## From Lady Cox

Sir. As a nurse who has recently returned from taking medical supplies to Poland on behalf of the Medical Aid for Poland Fund (MAPF), I wish to underline the seriousness of the situation, as indicated by Roger Boyes ("Circuses

Polish shortage

of medical aids

in plenty, but little bread", May 19). Acute shortages, not only of food but also of basic medical supplies, are resulting in rising morbidity and mortality rates in Poland. The infant. mortality rate has risen by one third in recent years and illnesses such as pneumonia, bronchitis and tuberculosis are all increasing.

A Warsaw newspaper recently cited research showing "a significant deficiency of protein, calcium, iron and vitamins A, C and D" in many of Warsaw's children. In one part of the city 50 per cent of the children suffer from dietary insufficiency and it is estimated that about 200,000 children require supplements to

their diet". Dangers to health from desperate shortages of medical supplies are quoted in this extract from Zycie. arszawy (March 31, 1984): Doctors and patients suffer greatly from the lack of equipment such as disposable needles, syringes and transfusion appar-atus. The shortage of this essential equipment is the main cause of a viral equipment is the main cause of a virial infection of the liver known as infective heparitis. The continuous use of the same, albeit sterilised, needle for injections was responsible for the 18 per cent rise in incidence of this serious

disease last year. Despite such problems, the standards of nursing and medical care remain remarkably high. As the director of a children's hospital said: The medical statistics are not as bad as they might be, because the staff give of themselves, in place of

what they have not got".

In such circumstances the work of organisations like MAPF has a value even beyond saving lives: it is a symbol that we in the West do not forget the Polish people in their sad predicament. Yours faithfully. COX,

House of Lords. May 21.

#### Air on Everest

From Mr Nicholas Holdsworth Sir, I fear that Dr Warren (May 19) is on a hiding to nothing but continues a strong tradition and is in good company: among others, Queen Victoria and her futile efforts to dissuade the flower of the English nobility from losing themselves to the game of Alpining; and the Swiss Government's ineffectual illegalization, between the wars, of attempts to climb the avalanche-prone North

Face of the Eiger. To the only too otiose fact that "the feat of climbing Mount Everest without oxygen, and at great risk, has now been accomplished several times" most high-altitude mountaineers would doubtless add, "of that and other 8,000-metre peaks: but not by me".

For the crux is this: that at all levels, overcoming the challenge of mountaineering problems is pri-marily an individual accomplishment which implicates a mastery of the self and only secondarily is it a success for the climbing community, a nation, or the species.

When possibilities have been realized and fresh standards set, can one really expect a retreat by the successors of those who set the standards? When Joe Tasker and Peter

Boardman disappeared on Everest two years ago they bequeathed a legacy of personal achievement and a record of motivation achieved in freedom which is not only a challenge merely to other climbers but also an inspiration to a wider world which lolls bereft of spirit and burdened by a grubby utilitarian ethic.

Sincerely NICK HOLDSWORTH. 15 The Grove,

Idle, Bradford. West Yorkshire, May 19.

#### Sixth-form studies From Sir Reginald Murley

Sir. Many must share Professor Oliver's view (May 23) that a short specialised pre-university course could facilitate entry into medicine for many excellent candidates from broad educational background. But why await the action or, more likely, the continued inaction by existing authorities? Is it not high time that at least one independent medical school was established to break the monolithic mould?

### Watering with care

I find it appealing. 12a Cambalt Road SW15,

May 24,

Voting abroad From Mr Brian McChiskey Sir. Your article, Britons abroad miss out on electoral Community spirit" (May 17) again drew attention to the anomaly that British citizens living in other member states of the Community will be unable to vote in the forthcoming

European Parliament elections. The British Government recently announced plans to enfranchise

British citizens abroad for national

and European elections in the

future, but stated that the right to vote will lapse after seven years' absence from the United Kingdom. The Government argues that British citizens who have been away for more than seven years have necessarily cut their ties with the

United Kingdom. Even if this doubtful assertion were to be accepted for national elections, it is not clear how it can apply to British citizens living in other member states of the European Community and wishing to vote for the European Parliament.

It will be a scandal if those of us who serve British interests on a permanent basis on the Continent of Europe continue to be the only Europeans disfranchised even after the passing of the planned legis-

Yours sincerely. BRIAN McCLUSKEY, Chairman, Association for the Rights of Britons Abroad – Luxembourg, 13 Rue Guillaume Capus, 1314 Luxembourg.

### **OBITUARY** Christian unity changes course towards Rome

#### SIR STANLEY HOOKER

#### The man behind the engineer

Lord Keith of Castleacre writes:
I would like to pay tribute to
Stanley Hooker, the man. With
all his brilliant achievements as a mathematician and an engineer, Stanley was possessed of a warm and lovable character.

He had a great capacity for making enduring friendships with all types, kinds and nationalities. A truly modest man, he was generous to a degree. He was the first to give credit to others when things went right; equally the first to assume the blame when they went wrong He was always interested in the young and a source of inspiration to those who worked with him

Stanley had that rare and invaluable facility of making complicated technical matters understandable to the layman and, although a master of detail, he always stuck to the essentials and never blinded his listener with science.

His outgoing and generous nature, his ready wit and his invariable kindness to all will be much missed by his many friends both here and abroad.

#### MRS MARY ADAMS A correspondent writes:

An appreciation of Mary Adams's achievements (Obitnary, May 18) would be lacking without some focus on early problems in BBC sound and television, and how she used her intelligence, dynamism and highly tuned feminine instincts to solve them, and bring the media up to date:

Sound (dominated by Reith) was formal, often anachronistic on her appointment in 1930, a clause (reserved for the few married women) in her Agreement read "If you are about to ment read It you are about to be confined the Corporation reserves the right to terminate your Contract — so Mary Adams ensured her indispensa-bility was absolute before contemplating any step in that direction. In trainped accommodation at Savoy Hill, before the days of Broadcasting House, every word was scripted - so she devised programmes (e.g., her series "Conversations in a train" on politics) deliberately casual in concept to help edge away from the prevailing starchiness.

Pre-war television (Mary Adams joined at its start in 1936) wasn't serious people, she recalled, were not interested in it wonly in the coming war. The key-note was informality and experimentation, and within a miniscule budget there was freedom. Mary Adams, one of only four producers, was in charge of education, political material, talks and culture virtually everything except for The Rev E J Watson, Assistant Corate of Chams, In Our Lady and S. Micholes, Charpool Tamment. drama, news and light enter-

Early problems abounded -Mary Adams solved them: transmission took place from Alexandra Palace (receiving radius 25 miles) - but where was it? And who could be induced to make the journey up there to risk their reputation for virtually no pay, to appear "at case" in front of cameras, speak without a script, and not dry up? All programmes were live, so there was no chance to correct errors.

Undaunted, Mary Adams saw to it that a bus was laid on between Broadcasting House and Alexandra Palace, bringing such emiment people as Julian Huxley and C. M. Joad (Brains Trust), Alexander Calder (mo-biles), Gordon Rusself (furni-ture), Kenneth Clark (pictures) - and John Betjeman to bring and show his artefacts from the country. She induced them all to have their faces plastered with heavy orange make-up, perform under dazzling hot lights, and not to wear red or white (they made the cameras "peel"). She chose faces that would transmit well: animation essential noses not too long. blue eyes preferable to brown.

出版の報告においては (2000年を) を見てなる 「大きなな」を

Her pioneer medical programmes came later, and she explained that it was merely symptomatic of the slow evolution of the medium that surgeon Sir Headley Atkins had, 10 protect his career, to appear on television with voice distorted. and fully masked. "Times will change", she explained.

She was on Christian name terms with everybody, in an age when this could be disarming. A woman in a man's world, Mary Adams leapt where others plodded.

two vigorous performances for Kent, Richard Ellison, another

failed to tackle it.

Cricket Corresponden

Andy Lloyd, of Warwick-shire, has been picked out from among the younger school of contenders to open England's innings in the one-day Texaco Trophy matches against the West Indies. He will go in first. to start with anyway, with another left hander, Graeme Fowler. Lloyd is the only new player chosen, though Bairstow and Pringle, who are also in the party of 13, have not appeared for a while. The three-match series starts at Old Trafford on Thursday.

Although England caps are not awarded for one-day cricket, there will be no knowing it from the way the games are played. Lloyd'd task is therefore a daunting one. The selectors (P. B. H. May, A. V. Bedser, P. J. Sharpe and A. C. Smith) have covered a good deal of ground in the last month, deciding who should take it on, and Lloyd is worth his chance. He is 27 and has come on well in the last couple of years, partly through working at the percentages. He is also said to have a good

Both Lloyd and Fowler would acknowledge, I am sure, the West Indian influence on their careers. If Clive Lloyd and Kallicharran took advantage of county cricket to develop their play in this country, Fowler and Andy Lloyd are now reaping the benefit of having been able to bat regularly with them, Fowler for Lancashire with Clive Lloyd and Andy Lloyd for Warwickshire with Kallicharran. All

four, of course, are left handers. Chris Smith, who was one of England's less unsuccessful batsmen last winter, was obvioulsy a candidate to go in first. But he is better suited by five-day than one-day, and being on the short side he has more trouble than some against the lifting ball. Even so, he could well get a Test match in the series which starts next month. Moxon and the lefthanded Broad are others under consideration. Both are big and strong and Moxon has a better

technique than most. There is no doubting Zealand, though he made good Two others in the Kent side, Fowler's courage. Because of the use of his winter, spent in Aslett and Christopher Cow-

### Middlesex debt

By Marcus Williams

LORD'S: Middlesex (4 pts) beat Northamptonshire by five wickets. A spirited opening partnership of 101 in 17 overs between two old hands. Barlow and Radley, put

players was good, it was remarkable of the current first-class programme, that there was any cricket at all on a lt stems from the time when

The weather was more appropriate to November than May but the handful of hardy spectators were rewarded for their patience with a start at four o'clock. The game is often criticized for delays in play after bad weather, but in this instance the umpires could not be faulted for fulfilling their obligations to the playing regulations and the paying public.

Conditions, favoured the batting

side, for although they had to contend with gloomy light and a slow outfield, the bowlers were tampered by damp footholds and a ball which became like a piece of wet soap after only a few overs, and the fielders had to tread gingerly on

a soggy outfield. Gatting won the toss and put Northamptonshire in, always an advantage in these reduced matches. advantage in these reduced matches. By the tenth over three wickers had fallen and only 31 runs had been scored, and had not Tomlins, who took a good running cauch to dismiss Larkins when the ball was still comparatively dry, dropped the party of the party of the still comparatively dry, dropped the party of the par Lamb when he was nine, the

The best off spinner is Emburey, who is still in balk. Of the other banned players. Gooch and Sidebottom may be in the corresponding side this time

England's form in the field in this coming one-day series coyuld hinge on Botham's bowling. He will have to be the fifth bowler, possibly with Gatting in support, and that can mean almost anything these days from two for 27 in 11 overs to none for 60 in six. Gatting's ability to bowl a reasonable length may assure him of a place - at the expense of Randall or Lamb. It would be nice if England could field 12 players. Indeed, in handicapping terms, that might prove just about right.

#### **McEnroe** confirms status as favourite

From Rex Bellamy Tennis Correspondent Düsseldorf

John McEnroe beat (van Lendi 6 3. 6-2 in the first match of the World Team Cup final between the United States and Czechoslovakia here yesterday. The manner and impli-cations of McEuroe's win had an importance beyond that of its context: because he confirmed his status as favourite for the single title in the French championships, which begin today,
Americans tend to be in a hurry

and therefore have a mental barrier to surmount on the slow shale courts prevalent in Europe. It looks as if McEuroe has surmounted it. This past week he has beaten Andreas Maurer, Jose-Luis Clerc, More Missians and I and mithout the March Missians. Hose Higueras, and Lendl without conceding more than three games in

McEnroe, in short, has produced McEnroe, in short, has produced the goods on shale – even in such damp. heavy, slightly slippery conditions as yesterday's. Rain interrupted the match for 21 minutes, and McEnroe and Lendi later played on through a light drizzle. Twice McEnroe slipped and fell fonce, a full-length crash). Another fast start briefly left him limping – and concerned about his ankle. "On the two occasions I fell, my racket hit the ground and then my racket hit the ground and then hit me on the head," he said later. "I've got more bruises than I've ever had before in a tennis match."

it should be noted, too, that when McEnroe was leading 5-3 and rain first began to fall, he made for the trist began to fail, he made for the dressing room - but stopped in his tracks when summoned by Ken Farrar, the supervisor, and instantly went back on court and got on with The entire occasion tested the

patience. composure, and concentration of both players. We had no doubts about Lendl, but we had doubts about McEnroe. Not any more. As for the tennis, McEnroe rallied when he had to, but attacked

when he could, McEnroe s own backhand came in two guises (chipped or top-spun) and was varied in length and pace, 100. McEnroe served well, used the drop shot on both flanks, and was so competent in all he did that Lend never had much cause for hope. Exciting? Well, no. McEnroe was too good. too composed. to permit

The excitement came later, while the resiliently stout-hearted Tomas Smid was beating Jimmy Arias 4-6, 7-6, 6-4. to put Czechoslovakia level. Smid, a hard man, knows more than Arias about the stress of international team competition.

Arias had a match point in the second set of a thrilling match but was off the mark with a back-hand passing shot down the line. Later. under pressure he became prone to slight indescretions. That left Lendl and Smid to contest the trophy with McEnroe and Peter Fleming. The Americans, true to their status as the best doubles team in the world, won

pest (choics is sufficient in the world, world, 6-1, 6-2. PARIS (Reuter) - Martina Navratilova, the world's top woman tennis player, begins her quest to complete a rare sweep of grand slam titles in the French open champion-ship here today. Nathalie Tauziat, a French wild card entry, has the task of taking on the Czechoslovak-born American, who will be determined to add the French championship to the Wimbledon, United States and Australian titles already in her

Miss Navratilova, number one in the women's draw, is among just five women's seeds in action on the opening day. Five men's seeds, including US champion, Jimmy Connors, are also in the first day's line-up.

Connors, seeded third, faces Eric Fromm, and the seventh seed Andres Gomez, of Ecuador, who won his second Italian Open title a week ago, plays the South African Bernie Mitton while José Higueras, a semi-finalist here for the past two years, takes on the veteran Romanian, Ilie Nastase. The minth seed, Henrik Sundstrom plays Alvaro Fillol, of Chile, in his

### Age gap too big for Carmichael

By a Special Correspondent After an impressive run at the After an impressive run at the Paddington tournament, sponsored by Penn, Bob Carmichael was beaten by John Whiteford, of Sussex, in the final yesterday, 6-3, 6-4. The Australian aged 43, playing his first major event in five years after injury and hoping to make a new career on the world's over-35 circuit, showed brief glimpses of his former skills. But a 16-year age difference proved too much. difference proved too much.

A switch of venues from the slow hard courts at the Paddington sports

club because of the waterlogged surface to the indoor racquets surface to the indoor racquets complex suited his opponent. The pace off the fast carpet had Carmichael in difficulty as he asked his reflexes to funtion from memory. In a 16-year career where he played in 14 Wimbledon Championships, reached the 1970 singles quarter-finals and was ranked in the world's top 20.

Whiteford, a former British international, who retired from the world circuit last summer, produced world circuit last summer, produced a series of penetrating left hand serves, firm volleys and accurate passing drives a Carmichael ap-proached the net. A break in each

set did the trick.

Kate Brasher, who is hoping to mix a tennis career with television journalism after finishing her degree journalism after finishing her degree in history and politics at London University in 1986, combined her efficient ground strokes and hard running to outwir the promising and versatile Romanian No 10 from Surrey, won 10 of the last 11 games, despite her opponent mixing some brilliant drop-shots with a penetration forehand drive.

ing forchand drive.

Perugia (AP) - The women's
Italian Open tennis tournament was
suspended again yesterday because
of rain. The quarter-final match
between Virginia Ruzici, of Romania and Manuela Maleeva, of
Bulgaria, is still unfinished.

United Kingdom Athletics Championships

### Rose takes the prize as Miss Budd is prised away

mark, Unfortunately, the following

wind was over four metres a second, nullifying what would have been a

British and Commonwealth record.

But her 6.96 metre and 6.91 metre jumps were only just over the two

metres per second wind limit.

Miss Hearnshaw and Beverley

Kinch, who was absent, can start thinking seriously of Olympic medals, even though Anisoara Cusmir, the Romanian world-record holder, looks likely to be competing in Los Angeles.

Nick Rose seized his British the North Eastern Counties cham-Olympic place vesterday, with victory in the 10,000 metres in the UK championships, at Cwmbran. The decisive moment came when he pionships, when a spiking put him out for the rest of the season. Rose has settled back in Bristol after spending several years in the United States building a reputation as one of the best road runners in sprang away from a mid-race collision, which left Mike McLeod, the favourite, almost 100 metres the world. Another athlete with Bristol connexions, Sue Hearnshaw, took advantage of the windy adrift.

adrift.

After a relatively slow first 5,000 metres in 14min 8,73sec, the leading five contenders, Steve Jones, Geoff Smith, Julian Goater. Rose and McLeod, had got away from the other 21 runners in the field,

Then, 10 laps from home, with Jones, the local favourite from Newport leading, and McLeod hard on his heels, Smith bumped Goater, who toppled over, spiking McLeod in the process.

in the process.

who toppled over, spiking McLeod in the process.
Goater picked himself up and carried on, but McLeod's shoe was torn off, and in stopping to replace it, he lost those precious 10 seconds to Rose. "I knew something had happened when I heard Julian swear. I looked round, saw the shambles, and just decided to go. If! died."

Far from "dying". Rose spec away to win in 28:00.7 from Jones 28:12.51. Goater, 28:13.02. and Smith fourth in 28:14.87. Smith will, after all, be allowed to run for Britain in the marathon at the Olympic Games. He displayed advertising material on his vest when he won the Boston Marathon earlier this year, but has been earlier this year, but has been

exonerated.

McLeod's initial reaction to his defeat was to say he would not run in the AAA 10,000 metres in a month's time, just prior to the final Olympic selection, and that he would now have to condider running the 5,000 metres trial on his home track at Gateshead, on June

McLeod cooled down with a jog after the injury to his right heel was dressed. Fortunately it was not a repeat of the incident a year ago, in

GOLF

#### Clark steps out of the shadows

By Mitchell Platts Howard Clark provided further evidence of his astonishing rehabili-tation this season when he put together an excellent 69 in the second round of the PGA championship, sponsored by Whyte and Mackay, at Wentworth yesterday. Clark graduated with honours in 1978 when he won two tournaments

in the space of three weeks but since then be has been compelled to watch from the wings as the likes of Nick Faldo and Sandy Lyle have The Yorkshireman, however, emerged from the shadows by winning the Madrid Open last month and how that he is back in the spoulight there would seem

every chance of him maintaining his challenge for the No 1 position in the European order of merit.

The prospect of achieving that particular target will certainly be improved if he should win the

Indeed the only worry for Clark would appear to be the weather. With Saturday's play totally lost because of rain, and a further delay

vesterday morning, there appeared in he little chance of competition especially as there was another interruption later in the morning. In the end the decision was taken play the second round, if possible. over yesterday and today and for a third round to be completed this afternoon. In spite of a reduction of 54 holes, which could lead to the tournament going through to the tournament going through to the Tuesday, the sponsors agreed that the full prize money of £150,000 would be paid whenever the last

putt drops.
In spite of the incessant rain, the sun continues to shine for Clark. Over the front nine he played tidy, if not inspired, golf, and he waited until close to the end to make a significant move. A six-foot putt gave him a birdie at the seventeenth and, with a three wood followed by a five wood, he reached the last (50.3 vards) with two confident blows. He then holed from seven yards for an eagle three.

#### Miss Waite held up by holder

By John Hennessy Linda Bayman made yet anothe

Hunstanton on Saturday, but the last obstacle proved just too much. Having beaten two members of the Curtis Cup team, Penny Grice and Laura Davies, at extra holes - during the process recording three birdies in three attempts - she had to surrender to a third. Claire Waite, in the final by three and two.

Had it not been for the heroic quality of the two matches the day before we might have written off the final when Miss Waite turned three tinal when Miss wante turned taree up, in spite of yet another series of escapes by Mrs Bayman at the holes she managed to halve. In thoroughly unpleasant con-ditions of stiff wind bearing cold rain, Miss Waite produced impressi-welly carterialled self.

vely controlled golf.

Muss Warte's counterpunch was a superb tee shot to the long 15th, finding the strip of green easis on the fairway that sets up a probable birdie four, and when Mrs Bayman taid a long uphill putt stone dead at the 16th, Miss Waite did likewise and there was nothing for it now but

Heather Oakes and Mike Mac-Farlane had a double triumph for their Haringey club. MacFarlane was blown to 10.08sec in winning the 100 metres from Buster Watson the defending champion, and Mrs Oakes won the women's event in 11.08. The future in these events looks assured, since Simone Jacobs, aged 17, was third in the women's, allou Bunney, also aged 17, fourth in the men's, and Vincent Jones, aged 18, fifth. Bristol connexions, Sue Hearnshaw, took advantage of the windy conditions at Cwmbran to long jump into the world's top 10. With the last of an outstanding series, where all six jumps beat her previous best of 6.83 metres. Miss Hearnshaw hit the seven-metre mark.

Zola Budd won her heat of th 1,500 metres comfortably enough in 4.16.27. But the small demonstration with loud hailers that disrupted the start of the meeting, and the brusque manner in which she was whisked away immediately after her race, maintained the uncomfortable feeling that has followed her in all her races in Britain so far.

The best final tomorrow will undoubtedly be the 800 metres, with Rob Harrison, Peter Elliott, Ikem Billy, Gareth Brown and Chris McGeorge all coming through their heats impressively.

### Lowe gets decision as equipment fails

Controversy raged over the blue riband 100 metres men's freestyle sprint race on the second day of the Hympic trials sponsored by Sun Life at Coventry, when spectators, competitors, coaches and officials were kept waiting for well over an hour for the result. In a desperately close finish the American-based Scot Paul Easter.

American-based Scot Paul Easter, aged 21, and the British record holder and champion. David Lowe, aged 24, from Harrow and Wealdstone touched together. But the Omega timing equipment which had been causing problems, malfunctioned again and failed to provide either a timing or a place for Easter. The BRC television record. Easter. The BBC television rerun seemed to suggest he had touched on the poolside as a winner. Some coaches and spectators, including the Great Britain coach, Paul Hickson, agreed. But the officials improved if he should win the £25,000 first prize and, with a 36-hole total of 133, 11 under par, he is surely nicely pricely anisely placing by the judges and referee who gave the decision to Lowe, in a time 52.39 and Easter was assessed

Olympic seletion as Easter is having his best competition of the season and had already won the 200 mnetres freestyle. Indeed he was able to shrug the row aside and goon to win the 400 metres freestyle. And the selectors are more than likely to pick four swimmers for the 400 metres freestyle relay event.

The women's 200metres breast-

The row makes little difference to

stroke saw a welcome return to form by Suki Brownsdon, of Millfield School, who as a prodigy aged 14, won a silver medal with the relay in Moscow. In 1981 she went on to set commonwealth records over both breaststroke distances but in the three years since then her performances have been disappointing. Yesterday, we saw the return of all her former adolescent zeal, as she took control from the dive and elearly had her race won by the 150metres mark, barring a collapse down the last length, where she has faltered so often in recent seasons. On this occasion she managed to te and came metres clear of Gaynor Stanley (Wigan Wasps) in 2mins 35.56sec. just 1.1sec outside her three-year-old British record, and a "B" guarantee selection time for Los

**EQUESTRIANISM** Phillips in

### winning frame again

By Jenny MacArthur

After three years' absence from the winning enclosure, Capt Mark Phillips, riding the Range Rover team's 10-year-old Fieldsman, made a happy return yesterday when he won the Glow-worm section of the Windsor Horse Trials, sponsored by the TI Group, after holding the lead throughout the three days of

throughout the three days of competition.

Two young riders filled the next two places. The talented Mandy Orchard from Beaconsfield was second, with Coeur de Lion III and the rapidly improving Clair Mason came third with Burlington II. It was touch and go for Capt Phillips in the final event, the show jumping in which riders went in reverse order of merit. Miss Orchard had a refusal which meant

that Capt Phillips had two fences in hand. Fieldsman promptly knocked down fences three and seven, and spectators held their breath as he rattled the middle part of the final ratled the middle part of the final reble. The pole stayed in place and Capt Phillips duly received the £250 first prize from Princess Anne, the president of the three day event, who has attended the trials from start to finish. Capt Phillips is donating the money he wins this year to the British Olympic Equestrian Fund.

There was another close finish in

Equestrian Fund.
There was another close finish in the TI Group section won by the 20-year-old Fenella Fawcus, from Sussex, on Blue Max II. She incurred no penalties across country, and yesterday had one fence in hand over Mary Thomson, from Devon. Iving second on the magestic looking Divers Rock. ## Robson will be forced into yet another new design

By Stuart Jones, Football Correspondent

England..

The two nations took different routes to reach the same destination, England, by necess-Sty carrying a load of unfamiliarity and inexperience, took the higher, riskier road and Scotland, the lower, safer way. As they sat uncomfortably at the bottom of the British Championship table, both sought a crumb of consolation of claim-

ing a moral victory.

The balance of the historic game shifted as rapidly as the Glaswegian weather. When the sun came out England shone, particularly in the first half. When the rain came down, Scotland sparkled, especially in the second. Overall control was retained by the visitors, the more dangerous threat was

presented by the hosts.

Bobby Robson was the manager to draw the greater satisfaction. Forced by numerous withdrawals to make seven changes and include two newcomers, he chose to fly even further away from security by choosing a pair of young wingers and leaving the midfield, a potentially decisive area, in the hands of only Bryan Robson and Wilkins.

All of his individuals played up to expectations, except for Blissett. He rose above them. Although unsettled and unsuccessful during his season in the Italian League, the former Watford striker looked sharper and more confident. Even his first touch, once so embarrassingly poor, showed a notable

The defensive deficiencies were confirmed. Duxbury is not as assured in the air as he is on the ground. When Strachan's chip floated towards him after a dozen minutes, he failed to cut out the danger as in Paris three months ago. Then Platini took advantage. At Hampden Park, it was McGhee. Sansom, so promising in his youth, seems if anything now to be in decline and can consider himself fortunate that no rivals at left

more serenc Wilkins were in their own ways as outstanding as usual. Among a disturbingly elongated list of England's current internationals only they and Shilton, who denied Archi-bald and Johnston during Scotland's late flourish, are fit to stand in the world class.

The attack although stretched refreshingly wide. lacked as much conviction as expected. Barnes, with the label of "England's most promising forward" fluttering around his neck for more than a year, cannot afford to go on failing to fulfil his rich potential.

Chamberlain, tentauve at the dawn of his first full appearance, had the misfortune to be marked by the stronger of

#### New tournament

The future of the annual England-Scotland fixture may be settled later this week. It is planned to replace the British championship with a three-team tournament, involving the two home countries and a European nation. Brazil and Italy have already declined to take part, but another European country has promised an answer this week.

Scotland's full backs. Eventually he stepped not only into the game but also on the toes of the previous unrestrained Bett

Woodcock, imprisoned largely by Miller, escaped to lift his and England's afternoon in the 37th minute. Cutting in from the by line to the edge of the area, he finished with a spectaculardrive. But, after suffering a recurrence of his hamstring truble, he may miss the next match, against the Soviet Union at Wembley next

Bobby Robson, rightly encouraged by the latest performance, will then no doubt be forced to renew his designs yet

SCOTLAND: J Leighton (Aberdeen); R Gough (Dundee United), A Albiston (Manchester United), J Wark (Liverpool), A McLeish (Aberdeen), W Miller (Aberdeen), G Strachan (Aberdeen, sub: P McStay, Caltic), S Archibald (Tottenham Hotspur), M McGhee (Aberdeen, sub: M Johnston, Walford), J Bett (Lokeren), D Cooper (Rangers).

fortunate that no rivals at left back have emerged. The central defenders, strangers to each other, gradually recovered from their understandable uncertainty and Fenwick remained less reliable than the forceful Roberts.

Although outnumbered in midfield, the prodigiously ac-

### Finns put the Irish in their place

From Clive White, Pori

Finland.

Northern Ireland .....0 The country for whom football is little more than a Sunday afternoon kick-about dashed the intensely serious hopes of the new British champions, here, yesterday. It was another humiliating blow for Britain's reputation let alone that of Northern Ireland, standard-bearers in international competition these

it was a defeat to rival England's in Norway thre years ago. The crowd of 8.150 in this football backwater of Finland thbroughly enjoyed their moment of victory as a harmlessly partisan crowd would watching a match at a holiday camp. The Irish have regularly failed

against outsiders more remote then themselves, but perhaps never so embarrassingly. Martti Kuusela, the nervously excited young Finnish manager, found it hard to remember their last victory, let alone a major one. In fact this was their second in the last 23 matches.

It was a result which made little

sense, least of all for the dumb-founded Irish players. Winners home and away against West Germany these last 18 months, they found Finland, with seven parttimers, a far more troublesome side to penetrate. The simple explanation was that, on a firm pitch and in a strong cooling breeze, the Irish in a strong cooling properties to the control - or, more appropriwoefully inadequate, painfully so in

in the first half. Northern Ireland hogged the ball almost greedily; the

**MOTOR CYCLING** 

### Consistency of selection will give Scots firm foundation

If Jock Stein had not an inexhaustible deposit of goodwill and respect from his unrivalled success as manager of Celtic, serious questions would be asked about his suitability to lead Scotland into the next World Cup. A rousing draw with England, which Scotland would have won but for the exceptional Shilton, has only marginally improved his hand.

FOOTBALL: ENGLAND DRAW THE GREATER SATISFACTION AT HAMPDEN PARK

Since Andy Beattle in 1958 – deputizing for the injured Matt Busby – when Scotland provocatively lost 3-2 in Sweden to Paraguay, a succession of managers, including Ian McColl, Bobby Brown, Willie Ormond, Ally Macleod and now Stein, have been unable to maximise the effectiveness of a wide array of ability. Stein taught Celtic to win; he has sadly, not to say inexplicably, been unable to insulate the national team from defeat. The truth is, of course, that in the eyes of

critics, all but a handful of international manager do fail, with the tendency being among the more prominent countries to regard anything less than the semi-finals of the World Cup - never mind not qualifying for the finals – as failure. Stein is discovering, as Revie, Greenwood and Robson have with England, that everything is stacked against the international manager in the

handful of matches available to him each season. and that the job is totally different from managing a club. Yet Stein, like the three England managers, is fluctuation in selection, not all of it unavoidable. He has used 25 players in this season's six

matches (43 in nine matches including the under-21 team), winning only two, and his results analysis since he took charge in 1978 after the MacLeod fiasco is hardly impressive: played 52, won 21, lost 20, drawn 11.

In the four years leading to the World Cup in Spain, Stein achieved a certain social victory, He persuaded Scotttish footballers and in turn their supporters, to accept more rational tactics and a

World Cup

Final table

defeat was not a catastrophe.

less emotional attitude to the game, in which

Having failed for the second time under Stein to qualify for the European Championships, in an admittedly difficult group with Belgium, East Germany and Switzerland, there ought now to be every chance of qualifying, for the fourth successive time, for the World Cup finals, against Iceland, Spain and Wales. Yet consistent selection alone will turn Scotland into a reliable team and there was not much sign of that on Saturday. There are, for instance, six main forwards

currently in contention for the senior side: Dalglish (mavailable on Saturday), McGhee and Archibald (selected), Johnston (substitute), Nicholas and McGarvey. In the two matches against France in Marseilles on Friday and Yugoslavia in September, Stein should make up his mind which pair he really wants, and then stand by them.

Secondly, Stein has to decide whether he is going to play with a deep-lying winger such as Robertson, discarded before Christmas, or a regular 4-4-2 formation. Cooper, able but inconsistent, has played the last two matches on the wing. In a conventional midfield quartet, Strachan, Wark, Sonness and Bett would seem to select themselves, Bett having an impressive first half-hour on Saturday and thwarted often only by Duxbury.

back five. Leighton is beginning to look as if he might become one of Scotland's rare goalkeepers of quality. Stein has opted for two stopper centre backs, Miller and McLeish, to the exclusion of Hansen, yet on Saturday they were most vulnerable to the combination of Woodcock and the much improved Blissett.

Scotland cannot be optimistic that they will dominate, either defensively or in attack, a modest qualifying group over the next 18 David Miller

#### Maradona set to move

Barcelona (Reuter) - Diego Maradona, Barcelona's Argentine international, looks set to leave Spain for Italy, following an offer of more than £5m from Napoli.

Maradona's press spokesman said

that Corrado Fertaino, the Napoli president, and Antonio Juliano, a club director, made the offer on Saturday. Officials from Barcelona agreed to consider the move and will meet again today.

The Argentine World Cup forward joined Barcelona in 1982 and has four years of his contract to

run. However, he has been criticized this season for several absences through injury and a three-month match match ban for his part in a cup final brawl earlier this month. He is also known to be unhappy about Barcelona signing Terry Venables as manager to replace the Argentine. Cesar Menotti. "The English style football doesn't suit me." Maradona said recently.

Venables, aged 41, has signed a two-year contract. "I've signed for an important club, which, like me, is very ambitious." Venables said.

However. Maradona warned yesterday of the realities of Spanish footbalk. If Barcelona don't win a title they're capable of selling the manager and the changing room benches," he said.

Stutigart won the West German league title on goal difference on Saturday, despite losing 1-0 at home to Hamburg, who needed to win by least five goals to retain the championship

 Alan Hansen, who missed Liverpool's friendly game in Israel last week because of a thigh strain, is expected to be fit to take his place in a full-strength side for Wednesday's European Cup Final against Roma

● Dundee United have signed Stuart Beedie, the St Johnstone midfield player, for £90,000. • England's hopes of becomin England's hopes of becoming the first holders of the UEFA Trophy for women ended in a 4-3 defeat on penalties after the second leg of the final at Luton yesterday. The aggregate score after the two legs was 1-1.

GOLF

and on the ground.
England were 15-6 up at half time, having never been behind Scholtz kicked two penalties after

side he must displace either Davies or Palmer, the man who displaced him at the outset. It was a cool overcast day, the rain poured down steadily for most of the match and the touring side revelled like guests at a party who, asked to bring a bottle of vin ordinaire, suddenly discovered vintage wine in their cellar. Bryan Barley, the Wakefield centre will join England in East London today as the first reinforcement this touring party has called for. But he will need to play or. But he will need to pay exceptionally well against tomor-row's opposition, the South African Rugby Association, to force his way into the side who will play South

to win place against S Africa

From David Hands, Cape Town side he must displace side by most displace side. Part of the part

Perhaps vintage is the appropriate word for three of the more mature members of the side. Horton Blakeway and Fidler who showed it was needed.

But it was the younger wines, laid down only this year - Butcher, Hall and Hill - who are developing so well on this tour. Hill snaffled the first try after a barastorming run by The 15 players who held a much-lauded Western Province to a draw at Newlands on Saturday stated a strong case for reselection en masse. Not only did they show greater commitment, skill and inventive-Hall and it was the Bath flanker, aided by another young man of promise, Preedy, who established the ruck from which Horton, whose mazy running baffled the Province back row, jinked over for the second ness than we have seen from E ngland for two years or more but they scored the game's two tries, both converted by Hare, who also kicked a penalty goal, against five penalties kicked by Scholtz - the last of them two minutes from injury

try.

The England scrummage stood firm against a much heavier pack and the lineout was as near shared as makes no difference. Fidler and the back row collected some sweet pickings, while Scott, chopping and changing, nudging and jostling, upset the opposition no end.

The back row was inamense, Burcher, whose courage cannot be too highly rated, improves with time to draw the match. Barley, an original selection for the tour who had to withdraw when damaged knee ligaments failed to mend in time, joins the party because Dodge has no prospect of being fit for selection this week. The Leicester centre's sprained left ankle makes it doubtful whether he will play again on this tour. Ironically, if

### Springboks' five new caps

Sonnekus has won previously was. 10 years ago against Willie-John MacBride's lions – as a accum half. That must constitute some kind of record even though Danie Craven, – the grand old man of Springhok rugby, himself a scrum half, was also forced to play in the back row in provincial games on tour From David Hands The South African selectors have named five new caps in the side to play England at Port Elizabeth next play England at Port Elizabeth next Saurrday. Villet and Williams, the Western Province backs, join Rogers, the hooker, and two new locks: Visagie and Burger.

This means that, for the first time, two Coloured players will represent South Africa in the same side. Williams about a same side.

#### A storming finish by the champion

BOXING

Miami (Reuter) - Albert Davila, of the United States, revived by what he called "holy water from the skies", retained his World Boxing Association bantamweight title when the referee stopped the bout against Enrique Sanchex after 31 seconds of the eleventh round.

Sanchez, of the Dominican Republic, controlled the bout until the sixth round when a tropical rainstorm hit the outdoor arena. constructed on a beach 50 yards from the Atlantic ocean. The storm, which left puddles in the ring and olew down a light stancheon at the back of the arena, raged through the seventh round before slowing to a trickle in the eighth. Davila, who was cut over both

eyes and had been staggered in the second round, was revived by the ain and turned it to his advantage. In the seventh, he manoeuvred In the seventh, he manoeuvred Sanchez round till the challenger was facing the rain. The champion then drove in blow after blow to turn the contest. "It was like holy water from the skies, it was a miracle". Davila said. "It started to revive me. He had hurt me early on. The guy could really punch'.

Racing: French suspension forces Mercer to miss ride on Time Charter at Epsom

## Superlative to relish softer going

A good draw and soft ground Muscatite but in the prevailing an enable Superlative to retain conditions he could easily be can enable Superlative to retain the winning trail in the Temple Stakes at Sandown Park today. Bill O'Gorman's handsome colt has run only two bad races in his life. The first was at Ascot last June and the second at York it days ago. Each time the ground was firm.

Now, after two days of rain, the conditions underfoot should be much more to the liking of Superlative, who ran so well in the Free Handicap. I expect to see him revel in them and beat Reesh, his stable companion, Petorius and Vorvados, who will also relish the softer

Petorius will be meeting Reesh on 4lb better terms than meeting his opponents on 6lb in the Palace House Stakes in which his own chance was ruined when he lost a shoe at the start. However, Reesh finished nearly four lengths behind Superlative in the Flying Childers Stakes over five furlongs at Doncaster last September and the ground that

day was soft.

The much softer going will also suit Erin's Hope, my selection for the Brigadier Gerard Stakes. Erin's Hope ran in the race 12 months ago and finished third, less that two lengths behind that extremely talented mare, Stanerra. On

Draw: 5f low, 7f over high numbers best.

4.5 Water Cannon. 4.40 Advance.

Tote: double 3.5, 4.5. Treble 2.30, 3.35, 4.40.

### Sadler's Wells in reserve

By John Karter

Vincent O'Brien confirmed yesterday that he will run Sadler's Wells, the winner of the Irish 2,000 Guineas, in the Prix du Jockey Club (French Derby) next Sunday. However, in the event of the going at Epsom becoming very testing there is a possibility that he could withdraw El Gran Senor, the oddson ante-post favourite, from the Derby and run Sadler's Welts, who like supary of give underfort there likes plenty of give underfoot, there instead.

With torrential rain having fallen in the Epsom area for the past few days, and more forecast, it is not impossible that we could have a repeat of last year when the going was heavy. This would obviously pur even more emphasis on El Gran Senor's unproven stamina.

lan Balding has engaged Bruce aymond to ride the fancied Derby outsider. Elegant Air, and the trainer also says that Troyanna is a definite runner in the Oaks with Pat Eddery ber probable rider.

On the subject of the fillies' classic, Clive Brittain said yesterday that as far as he was aware Pebbles, the winner of the 1,000 Gnineas who has been bought from Captain Marcos Lemos by Shaikh Mohammed, was still on target for the Oaks. A final decision will be made after Brittain has talked to the owner in the middle of the week.

### Piggott picks Dahar in search for tenth Epsom Derby winner

From Desmond Stoneham, French Correspondent, Paris

Lester Piggott will ride Dahar in the Derby on Wednesday week, provided the colt either wins or is placed in the Prix du Jockey-Club (French Derby) which will be run just three days before England's premier classic. At Longchamp will ride Dahar at Chantilly and at Epsom provided the horse does not disappoint in the French Derby. I know its a risk as I could be left to the Dahar at I could be left to the hands of Alain Lequeux, who know its a risk as I could be left to the Derby and I control the provided the horse does not disappoint in the French Derby. I know its a risk as I could be left to the Dahar at Lequeux, who know its a risk as I could be left to the Dahar at Lequeux. Lester Piggott will ride Dahar in the Derby on Wednesday week, provided the colt either wins or is placed in the Prix du Jockey-Club (French Derby) which will be run just three days before England's premier classic. At Longchamp yesterday afternoon, Piggott said: "I will ride Dahar at Chantilly and at Epsom provided the horse does not disappoint in the French Derby. I know its a risk as I could be left without an Epsom ride, but I think Dahar could be a great horse."

His trainer Maurice Zilber, who won the Derby with Piggott and Empery in 1976, said: Provided Dahar wins or has an excuse for being only placed in the Jockey-Club, then I will run the colt three

must now look elsewhere for a mount in the French classic.

Joe Mercer picked up an eight-day suspension at Longchamp yesterday when he finished second in the Prix Dollar on Mourjane. This will mean that Mercer misses the ride on Time Charter in the Coronation Cup at Epsom

The Prix Dollar went to the pacemaker, Mourtazam, who would have returned odds of 50-1-if he had not been coupled with three more fancied stabemates. He took up the running just before the final furlong and ran on well to defeat Mourjane by three-quarters of a length with Pat Eddery and Hot Touch a further-length and a half away, third.

length and a half away, third.
Harlow, and George Duffield,
won the seven furlong Prix du Palais
Royal by a length and a half from
Nikos, with Parioli a further length
away third. Harlow made his
challenge at the furlong marker and
ran on to be a comfortable winner.
Mark Passeou, will bring the fire Mark Prescott will bring the fine looking son of Caro back for the Prix de la Porte Maillot

### Katies gives Ramsden a quick return

From Our frish Correspondent, Dublin

Terry Ramsden, London stock-broker, purchased Katies on the telephone at the beginning of last week without having seen her. On Saturday he saw his investment multiplied several times in value when the filly carried off the Goff's frish 1.000 Guineas at The Curragh in an exciting finish, with just over three lengths covering the first nine three lengths covering the first nine

Katies was the first runner in this country for Mick Ryan, the Newmarket trainer, whose classic successes hitherto have been confined to an amazing series of

victories in Holland.

ridden by Philip Robinson, who had carlier this season won the English 1,000 Guineas on Pebbles. This is the first time that this classic double has been completed by a jockey. Katies, stuck to her task well after sprinting clear below the distance. and never really looked like being headed by the late challengers. Alianna and So Fine. Katies will now be aimed at the Coronation Stakes at Royal Ascol.

Vincent O'Brien must have viewed the outcome of the Windfields Farm Gallingle Stakes

There was another remakable with mixed emotions. Empire aspect of this win in that she was Glory, who had set a new world record for a yearing sold at public auction when realising \$4,250,000 auction when realising \$4,250,000 in the summer of 1982, was supposed to make his debut here. Repeated efforts to load him in the

> At the other end of the race, however, his stable companion, Montelimar, quickened with authority to beat Executive Pride very easily. Vincent O'Brien named him as his likely runner in the Joe McGrath Irish Derby on June 30

Law Report May 28 1984

The state of the s

### **Divisional Court** can review coroner's inquests

Coroner, Ex parte Tal and Before Lord Justice Robert Goff, Mr

Justice McCullough and Mr Justice [Judgment delivered May 22]

The wide supervisory common law jurisdiction of the High Court to order judicial review was available in relation to inferior courts as well as inferior tribunals and accord-

as interior tribunals and accordingly, those broad powers were applicable in the case of a coroner's inquest.

A Queen's Bench Divisional Court so held in a reserved judgment when dismissing an indicate first indicate preview by judgment when dismissing an application for judicial review by the applicants, Ida Tal and Frank Thomas, seeking, inter alia, an order of certiorari to quash the verdicts returned in an inquest. Mr Stephen Sedley, QC for the applicants; Mr Simon D Brown as

LORD JUSTICE ROBERT GOFF, delivering the judgment of the court, said that the application was made by the families of two young men, who, together with another man, died in a fire in a cell

in Strangeways Prison, Manchester.
The application related to verdicts of a coroner's jury at the conclusion of an inquest on the deaths of the three young men conducted by Mr Leonard Malcolm Gorodkin, the Greater Manchester In the case of the two men, the

verdict was death by misadventure, but in the case of the other man an open verdict was returned.

Those differential verdicts had d the application; the two milies thought it might cast some reflection upon the two men as having possibly caused the death of

Before turning to the substance of the application, the court had to consider a jurisdictional problem. consider a jurisdictional problem. The application was made under the common law jurisdiction of the court. In R r Surrey Caroner, Exparte Campbell ([1982] QB 661) a Divisional Court held that the broader powers of the court under which an error of law might go to the injection of the tribunal the the jurisdiction of the tribunal [the Anisminic principle (Anisminic Ltd v Foreign Compensation Commission ([1969] 2 AC 147)] had no application in the case of a coroner's

As amicus curiae, Mr Brown agreed with the applicants' sub-mission that the Campbell case was wrong. However, he submitted that this court was bound by the earlier decision of that Divisional Court in Campbell and was not free to depart

The court had considered the impact of the authorities on the present case, which was concerned

#### **Ex-council** gardeners entitled to award

Fleming and Others Wandsworth London Borough Council Before Mr Justice Hodgson

former to the latter under a transfer of property order made pursuant to section 23(2) of the London Government Act 1963, and who had subsequently been made redundant when Wandsworth, in seeking to

when Wandsworth, in seeking to comply with government targets for local government expenditure, had privatized its gardening services, were entitled to long-term compen-sation under Part IV of the Greater London Council Housing (Compen-

sation under Part IV of the Oreater London Council Housing (Compensation) Regulations (SI 1980 No 646) because their dismissals had been attributable to the making of the transfer of property order.

Mr Justice Hodgson so held in a reserved judgment in the Queen's Bench Division, allowing an appeal

by Mr A. P., Fleming, Mr D.
Chandler, Mr D. Swinney and Mr
G. Humphrey from a decision of an
industrial tribunal which on August
19, 1983, had held that their

dismissals had not been attributable

to the transfer of property order.

Mr Peter Weitzman, QC and Mr
Andrew Bano for the appellants; Mr
Richard Crabb for the council.

MR JUSTICE HODGSON said

order withing 10 years of the making of the order. It was possible for the redundancies to be attributable both to the council's

decision to privatise and to the transfer of property order.

only two cases. Mallett v Restormed District Council ([1978] ICR 725) and Walsh v Rother District Council ([1978] ICR 1216). Both cases had

concerned similar provisions arising out of the Local Government Act

1972 under which certain authorities had ceased to exist and had

dismissals were not attributable to the provisions of the 1972 Act, it was not suprising that the tribunal

had reached the decision which it

The tribunal had been referred to

When hearing an application for judicial review, a Divisional Court was not sitting in an appellate capacity. It was exercising a supervisory jurisdiction.

If a judge of the High Court sat exercising the supervisory jurisdiction of the High Court, the relevant couployed by the Greater Landscape of the property of the [Judgment delivered May 17]
Four gardeners who had been employed by the Greater London Council and then transferred to the Wandsworth London Borough Council under the Greater London Council Housing (Staff Transfer and Protection) Order (SI 1979 No 1737) as a result of the transfer of housing accommodation from the former to the latter under a transfer of property order made pursuant to principle of stare decisis (abiding by precedent) was the principle applicable. The same principle was

applicable. The same principle was applicable when the supervisory jurisdiction of the High Court was exercised not by a single judge but by a Divisional Court, where two or three judges were exercising precisely the same jurisdiction as the single judge.

The result he only in three cases that It would be only in rare cases that a Divisional Court would think it fit to depart from a decision of another Divisional Court exercising that Divisional Court exercising that supervisory jurisdiction. It was difficult to imagine that a single judge would ever depart from a decision of a Divisional Court.

in the Campbell case the court accepted a submission that a coroner's inquest was a court and that the Anisminic principle was restricted to statutory tribunals and had no application to any inferior

It was, however, now plain that Lord Diplock did not intend to say that the Anisminic principle did not extend to inferior courts as well as to tribunals. In his authoritative statement in O'Reilly v Mackman ([1983] 2 A C 237) he referred to Anisminic as the landmark decision which has liberated English public law from the fetters that the courts had theretofore imposed upon themselves so far as determinations of inferior courts determinations of inferior courts and statutory tribunals were concerned, by drawing esoteric distinctions between errors of law committed by such tribunals that went to their jurisdiction, and errors of law committed by them within

of law committed by them within their jurisdiction.

Historically, inferior courts had always been subjected to judicial review, though originally only in cases of error going to the jurisdiction and errors of law within the jurisdiction and errors of law within the jurisdiction which appeared on the face of the record.

Since Anisminic, the require-ments that an error of law within the jurisdiction had to appear on the face of the record was now obsolete. In principle, inferior courts as well as tribunals were amenable to the supervisory jurisdiction of the High Court under the Supreme High Court III Court Act 1981.

Although it was right to conclude on the authority of Lord Diplock's statement of law in O'Reilly v Mackman, that as a matter of principle, the Anisminic principle applied to inferior courts as well as inferior tribunals, nevertheless the court was not to be understood as expressing any opinion that the principle applied with full force in

#### Credit broking by agent unlawful

Hicks v Walker and Others Before Lord Justice Watkins and

[Judgment delivered May 16]

A person was engaged in credit brokerage within section 145 of the Consumer Credit Act 1974 not only where he directly effected an introduction but also where the introduction was effected by

The Queen's Beach Divisional Court so held allowing an appeal by the prosecutor by way of case stated against the finding by the Wolverhampton Deputy Supendiary Magistrate that there was no case to answer on a charge of credit broking without a licence.

Mr Philip Parker for the prosecutor: the defendants did not appear and were not represented.

LORD JUSTICE WATKINS said that it appeared from the evidence that the first defendant was a motor trader who had been refused a licence for credit brokerage under the Consumer Credit Act 1974 with the effect that he could only sell cars for cash. He sublet part of his premises to the third defendant, a company which held a Consume Credit Act licence.

On the sublet part of the site he employed the fourth defendant who employed the fourth defendant who was also an employee of the third defendant company. The arrangement was that if a customer came to purchase a car for cash the transaction would be conducted by the first defendant, but in hi that under regulation 11(1)(a) of the 1980 Regulations the appellants were entitled to long-term compenabsence the fourth defendant would act as his salesman and complete sation only if they had suffered loss of employment attributable to the making of the transfer of property

If a customer was unable to pay cash then that person was informed by the first defendant or the fourth defendant that credit facilities could be arranged.

It was customary for the fourth defendant then to inform the defendant company that a customer of the first defendant was anxious to obtain hire purchase facilities. The defendant company then got in touch with a finance company. The car was sold by the first defendant to the defendant company to allow that company to give good title to orities had ceased to exist and had been replaced by others.
In each case an employee of an old authority had been employed by the successor authority and then dismissed by reason of a policy decision of the new authority. In the light of those decisions, in which the Court of Appeal had held that the dismissals were not attributable to

The finance companies thought that they were dealing exclusively with the third defendant company. The customers thought they were dealing with the first defendant or his salesman on his behalf.

There was clearly an inference to be drawn that the fourth defendant in his two guises moved from one role to the other. He was introducing to the third defendant company the fact that the first defendant had a customer who needed condit facilities from a

present case, which was concerned not with an appeal but an application for judicial review. Such applications might be made either in criment operations. When I such a substitution is the case of every inferior court. There was authority, decided since Anisminic, restricting the since Anisminic

## University Appointments

THE UNIVERSITY OF LEEDS

DEPARTMENT OF ADULT AND CONTINUING EDUCATION **Chair of Adult Education** 

Applications are invited for the Chair of Adult Education in the Department of Adult and Continuing Education, vacant upon the retirement of Professor Norman Jepson. The Department at present has some 30 academic members of staff. In filling the present has some 30 academic members of staff. In filling the chair, the University is seeking to appoint a person of academic emmence and managerial ability, who will develop research and teaching in Adult Education as a subject of academic study. The person appointed will also be responsible for promoting and co-ordinating adult education by other departments of the University. The appointment will be made from 1 October 1984, or as soon thereafter as may be arranged with the successful candidate, and the salary will be within the professorial range, minimum 217.275 a year (under review).

Further particulars may be obtained from the Registrar, The University, Leeds LS2 9JT, quoting reference number 25/30A. Applications, giving details of age, qualifications and experience, and naming three referees should reach the Registrar no later than 5 July 1984. Applicants from overseas may apply in the first instance by cable, naming three referees, preferably in the United Kingdom.

NUFFIELD COLLEGE OXFORD

#### Research Officership

Applications are invited for a three-year Research Officership on the ESRC Financed Project on Feedback and Expectations Mechanisms in Econometric Models under the Direction of Professor David Hendry and Dr

The salary scale is £7,190 - £11,615. Candidates must have in FORTRAN programming and in

Applications, no later than 15 June, should be addressed to the Chief Secretary, Nuffield College, Oxford OX1 1NF.

University of Edinburgh

FACULTY OF MEDICINE

CHAIR OF

PHARMACOLOGY

Applications are invited for the Chair of Pharmacology in the Faculty of Modicins in the University of Edinburgh.

The Professor of Pharmacola will be expected to provi academic loadership as Head Department, to promote a conduct research and to participatin undergraduate and por graduate teachino.

The salary will be at the pre-clinical professorial level (minimum £17,910 per annum).

Further particulars may be obtained from the Secretary to the University of University of Culturersity of Cult

**ECONOMETRICS** ole from October, 1964.

Purther particulars may be obtained from the Establishment's Officer. The University, College Cate, St Andrews, Pite, Icy L6 SAA, to whom applications two copies preferably in Dypacript) with the

Department of English English Language Research SENIOR LEXICOGRAPHER A vacancy exists for an experienced lexicographer at a senior level to join a team engaged in a major project directed by Professor J M Sinclair. The appointment is for the period up to June 1985. Applicants should have several years lexicographical experience, preferably backed up by some TEFL or other teaching experience.

UNIVERSITY OF BIRMINGHAM

Salary on the Research Fellow 1A scale: £7,190 - £11,615. TRAINEE LEXICOGRAPHERS

Re-advertisement

There are also vacancies for two trainees on the above project for the period to December 1985. Applications from graduates with a good degree in a relevant subject, for example, English, Modern Languages, Philosophy, or Linguistics, or final honours students who are expected to get a good degree will be considered. Experience of teaching EFL would be an advantage as would experience of writing for publication. The essential requirements are a good analytic mind and an interest in subtle distinctions and writing clear explanations.

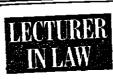

Salary on the Research Associate scale: 26,310 – 28,530.

Applications (elx copies) naming turee reterees by 12 June 1984 to Assistant Registrar (Arts), University of Birmingham, P.O. Box 363, Birmingham, 815 2TT, from whom further particulars may be obtained.

#### UNIVERSITY OF DUNDEE CHAIR OF **BIOCHEMISTRY**

Applications are invited for the Chair of Biochemistry which will fall vacant on 1 October 1984 as a result of the resignation of Professor P. B. Garland to take up a senior research post in inclustry. Further particulars are available from The Secretary, The University, Dundee, DD1 4HN with whom applications (10 copies, or if posted oversees one copy) containing full career details, a summary of research interests, and the names of three referees should be lodged as soon as possible.

Please quote reference EST/18/84. It is intended that shortlisted candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the end of September 1988 of the candidates should be interviewed in Dundoe before the candidates and the candidates are candidates and the candidates and the candidates are candidates are candidates and the candidates are c

Applications are invited for the above post tenable on or before 1st October, 1984. Salary will reflect qualifications and experience.

Applicants should have a good nonours degree in law and preferably be professionally qualified as a barrister or solicitor.

Classing date 15th June. 1994. Further particulars from the Registrar, The University of Buckingham, Buckingham, MK18 IEG. Telephone (0280) 814080.

Iniversity of Buckingham

University of Manchester MANCHESTER BUSINESS SCHOOL ASSISTANT LIBRARIAN

ASSISTANT LIBRARIAN

Mr TUSTICE SKINNER said that the defendant had argued that the plaintiff's ability to enjoy the land, and also the diminution of the value of the land, which could only be sold as private woodland and not as a tip with a communers car park at one end.

Solicitors: Thomson, Snell & Passinore. Tonbridge Cripps Harmoniaral argued that the defendant had argued that the plaintiff's ability to enjoy the land, and also the diminution of the value of the land, which could only be sold as private woodland and not as a tip with a communers' car park at one end.

Solicitors: Thomson, Snell & Passinore. Tonbridge Wells.

LORD JUSTICE WATKING said that the determination by the justices was not based upon any waiver by the police of the power of arrest as in Revel v Jordon ([1983] RTR 497) but on the basis that there had been a complete in this later than been a complete in this the procedure under section [9]. The sample even builty supplied was one supplied in respect of a different inquiry, namely whether an offence under section 5 had been committed.

Crown Court on November 15, 1982 and remitting the case to the

機関は、CTCCEです。CL で上述して、CCC で、LL で、CCC で、LL で、CCC で、LCC で、CCC で

of the Courts Acts 1971 provided the court with the power to make such an order as it thought just to give effect to its judgment.

Mr Justice Hodeson so held in the Queen's Bench Division on May 16 allowing the appeal by case stared of the ratepayer against the decision on of Judge Moylan at King's Lynn of Judge Moylan at King's Lynn of Judge Moylan at King's Lynn to Judge Moylan t

of the defendant had argued that the defendant of the yalu of the land, and also the dispression of the land, which could only be sold as private woodland and not as a tip with dispression of the same way.

6.10 Film: Henry VIII and His Six

paints in watercolour: Bert irvin (acrylic); Robin Philipson (oil colour); and David Tindle

 There is not a single Bank holiday film that is worth wasting your time on unless the rain is lashing the windows or you are too lazy to cross the room and switch the set off. The best of the bunch are Arthur Hiller's THE HOSPITAL (BBC 2, 10.05 pm), the blackest of black comedies, to write which Paddy Chayevsky dripped his pen into vitriol; and FRENCHMAN'S CREEK (Channel 4, 2.55 pm), a costume romp which at least has the honesty not to pretend to be anything else. HENRY VIII AND HIS SIX WIVES (BBC 2, 6.10 pm) is unworthy of the BBC Television series that spawned it, although Keith Michell triumphs over the lumpen direction. The day's most interesting movie offering is not a film at all but the FILM 84 special devoted to the Cannes Film Festival (BBC 1, 10.50 pm). We can depend on Barry Norman not to be

CHOICE

overwhelmed either by the soft lights, or the hard commercialism, of the festival.

 Could it be Haydn? Or early Verdi? Or Rossini? Or even Mozart?
 If you miss the opening announcement for DON SANCHE amouncement for DON SANCHE (Radio 3, 4.45), you will never guess that what you are listening to is Liszt. But Liszt aged 13½, and therefore a youth who could not be expected to know that there is more to writing good opera than hooking together lots of good tunes. And, indeed, good tunes abound in this one-act opera, which , performed four times in the 1820s, was largely forgotten about until a British stage production seven years ago. Today's production, recorded in

Glasgow last year, is whole-hearted and full-throated. The BBC Scottish SO is in tip-top form, but some of the principal singers have difficulty with the inexperienced Master Liszt's vocal acrobatics.

How nice to have a programme about The Times that reflects a rosy future for the paper and not, as so often in the past, a bleak present. TEAM CHOICE WITH JIMMY HILL (Radio 4, 9.05 am) is Desert Island Discs transplanted to New Printing House Square, WC1. Learn what the editor's musical choice is; why Philip Howard opted for Don Giovanni; and why Mozant's Jupiter Symphony was an entirely appropriate choice for The Times archivist, Anne Piggott.

Peter Davaile

the water. Tonight's edition comes partly from Plymouth where 99 entrants from 17 countries are lining up for the start of the Observer Singlehanded Transatiantic Race; and the items also include a and the items also include a report or Britain's Olympic sailing squad, from Weymouth.

8.15 The Monday Play: Orlando, by Virginia Woolf. Dramatised by Peter Buckman, With Vivian Pickles as the Narrator, and Jennie Stoller in the title role. The play symbolically traces 300

### Scargill blames police for picket line scuffle

By Our Labour Reporter

For the first time since the pit ation says it needs an extra strike began Mr Arthur Scargill was involved in a picket line skirmish yesterday, at a British Steel Corporation coke plant.

Mr Scargill was pushed to the ground as demonstrators and police clashed outside he works at Orgreave, South Yorkshire. The pitmen's leader, who was

not hurt blamed the police for the incident. About 100 demonstrators

had gathered outside the plant to try to stop a convoy of lorries carrying coke to the steelworks at Scunthorpe. The skirmishes began when police herded the pickets away from the entrance to allow 27

lorries left later. Miners are angry because Teachers in Further and Higher they are allowing 16,000 tonnes of coal into the Scunthorpe members, has given £10,000 to works by rail, but the corpor- the striking miners.

iorries through. A further 50

5.000 tonnes of low sulphur coke from Orgreave to ensure the stability of furnaces.

Mr Scargill said afterwards that there had been a near disaster on the picket line. There were men on the floor. there were police on top of them and more pickets on top of

He said the men at the coke plant would consider whether to stop the plant completely until the "scab" drivers were banned. Mr Scargill will meet Mr James Cowan, deputy chairman of the National Coal Board, this

week to try to settle the dispute. now entering its twelfth week. The National Association of

### Germany revives the age of steam

From Michael Binyon Bonn

For the first time since 1977 steam trains will once again run on West Germany's railway network. To commemorate the 150th anniversary of the first railway in Germany, three engines now preserved by German Federal Railways are to be brought out of storage and set to work next year on two lines running out of Nurem-

West Germany was one of the last Western industrial nations to get rid of steam traction, but unlike Britain does not allow any private preservation societies to run their steam trains on the state network. The reintroduction of steam engines is expected to tap a large reservoir of steam nostalgia here, and may lead to plans for permanent steamhauled trains on scenic lines. The trains, with historic

Organ recital by Michael Nicholas, Norwich Cathedral, 11.

Model Craft and Country Show

Kenilworth, Warwickshire, 9 to 6 West Country Boat Sho

coaches, will run at weekends from May until September next year on the 45-mile line from Nuremberg to Bayreuth and on another branch line off to Amberg. Nuremberg is the Darlington of German railways, as the first train ran from this ancient Bavarian City to Forth four miles away on December 7, 1835, thus taying the track for Germany's industrial development.

German railways have their main steam museum near Bayreuth at Nevenmarkt-Wirs berg, where 20 standard-gauge locomotives from every epoch of rail history are housed. In Nuremberg, a transport museum contains among its engines a Reichsbahn "05" which could reach 125 miles an hour and a 1933 express railcar which once provided a regular service between Berlin and Hamburg at a speed of 100

on the lines from Nuremberg chosen because there are no overhead power lines to spoil photographers' pictures – will be a series "01" 4-6-2 loco-motive, built in 1940, a series "50" 2-10-0 goods locomotive, also built in 1940, and a "23", one of the last series built in Germany which is a 2-6-2, from

German railways are hoping the steam tours and other special events for the anniversary will boost passenger traffic. The celebrations come at a difficult time for the railways, which now account for only 6.5 per cent of all traffic and lose more money than any other European system. Last year's deficit amounted to DM4,990m (£1,313m) and the new Government is resolved to cat the losses. It has drawn up plans for the closure of over 4,300 miles of track, the scrapping of

75,000 goods trucks and a cut of 80,000 in the workforce. German railways, though providing an envisible efficient and comprehensive inter-city service, have never had a Dr Beeching to prome the many single-track lines that still

and serving small towns all over the Federal Republic. But strong objections to any closures have been voiced in all

regions, especially in Bavaria.

Lronically the government is also committed to spending nearly £4,000m building new railway lines, one running for 205 miles parallel to the East German border to link Hamburg with Munich. Before the war the rail network was oriented east-west, and the division of Germany cansed bottlenecks on the north-south lines and imposed

#### US airlines jittery over Air Florida

From Our Correspondent, Miami

One of the top US airlines has ended its reciprocal ticket ford Connecticut.

agreement with financially troubled Air Florida. It gives as rangements, most airlines its reason the need to limit its OWN CRECTIT EXPOSURE.

That means we will no onger accept Air Florida tickets for flights on Delta," Mr Bill Berry, Delta's manager for public relations, said shortly before the agreement finished.

Delta, Eastern Airlines, North West Orient Airlines and several other carriers, have terminated all or part of their reciprocal arrangements with Air Florida.

The Delta termination began a few hours after Air Florida announced that it had not been able to reach a final agreement in its attempt to obtain a \$5m loan from General Electric

rangements, most airlines honour one another's tickets on virtually unrestricted basis. This amounts to the extension by one airline of credit to another airline until the accounts and balances are settled by the clearing house each month. This balance would be upset when for example, one airline failed to settle its account on time. Air Florida's is a month behind on its settlement already.

The airline, which has flights to Britain, is also having problems with travel agencies based in the Miami area, which are beginning, in their attempts to protect customers, to have serious doubts about issuing Air Florida tickets.

#### Nature notes

In the Outer Hebrides, cornerakes are back: until the grass and corn grow taller, they stay in the beds of yellow-iris leaves, climbing up on stones to make their loud, grating northern divers are still making their way up western coasts: at high tide they come in closer to the shore. their massive bills and brilliant spangled backs can be clearly seen. Oystercatchers are displaying excitedly on the rocks they point their long red bills downwards and pipe loudly to drive an intruder away. A few are already nesting in shallow scoops in the

The leaves on the ash-trees have come out late this year: some are only just opening now. In the north of England and the Scottish lowlands, bird cherry is in flower: its long spikes of white blossom are quite unlike other cherries. In the same parts of the country, sweet cicely is common on the roadsides: it is like cow parsley, but not so thin and lacy, more of a bright green-and-white bush. The four-petalled

are coming out everywhere.

### The papers

The Americans are blamed for

vellow tormentil is in bloom, and kidney vetch and bird's-foot trefoil

much of Britain's - and the world's -financial woes in the Sunday papers. The Mail on Sunday blame Britain's "trade union militants' and America's "short-sighted poli ticians" in equal measure. For The Sunday Times, President Reagan's own political fortunes depend on own postucal fortunes depend on cutting the federal government's deficit at once. "That is the best hope of averting a full-scale international banking crisis", the paper says. The Sunday Telegraph however, expects him to "sit on his hands" with the election calls sit. er, expects him to "sit on his with the election only six months away.

A sour mood tinged with anxiety about the nation's economic prospects characterizes the other papers. The Sunday People notes that Britain is in the doldrums but is still about to produce "the finest Upper Class Twits on earth" - citing the scions of three famous families. The Sunday Express suggests that there is a great deal of shouting that still needs to be done in Europe" to secure financial justice for Britain in the European Community: Mrs Thatcher is the one to shout, it says, in preference to Mr David Steel, who has been urging a softly, softly approach.

Commenting on reports suggesting that Mrs Thatcher will make a
special case of the nurses and give
them the full rise recommended by
their pay review body, the Daily
Express says: "The Government is
perfectly within its rights to have the
last word when it comes to public
sector pay, even when this means
setting aside recommended increase
limits. ... Few neonle will beginder limits.... Few people will begrudge the nurses the full amount."

#### Roads

London and South-east: A6: Northbound width restrictions on South Mimms by-pass. A105: Roadworks on Green Lane, Manor House, between Seven Sisters Road and Gloucester Drive. A4: Experimental traffic scheme on Great West Road at junction with Windmill Road (B452); approach with caution.

Midlands and Fact Anolis: A34 Roadworks on Winchester to Preston road with diversion at Tidmington, Warwickshire. A34: Lane closures on Stone to Newcastle road at Strongfold.
